Queen O' the Lakes

401-62

This gorgeous, crimson Queen of flowers was named in honor of the reigning Queen of the Minneapolis Aquatennial. One of the best of red roses, this **Sub-Zero** is completely double, long lasting and prolific. Its grace and form will make it one of your favorites. (Propagation Rights Reserved). 2-yr., No. 1 plants, \$1.75 each; 3 for \$5.00; 12 for \$18.00. 2-yr. JUMBO plants, \$2.00 each; 3 for \$5.50; 12 for \$20.00, all prepaid.

80 YEARS of CONTINUOUS SERVICE

*Yes - but what does
that mean to YOU?*

C. H. Andrews

Do you care how long we have been in business? Probably not. We could tell you that on our 1200 acres of fertile Minnesota farm land, we grow some of the finest plants and trees that can be found. We could tell you that we use the most modern and scientific methods to produce good, sound, high vitality plants. Certainly—that's true enough—but wouldn't you rather know what we want to do for you?

Our intentions are precisely this: **WE WANT YOU TO BE A SATISFIED USER OF ANDREWS' plant materials.** We will do everything in our power to achieve that end.

The fact that we are celebrating our **80th year** of continuous service is of no particular interest to you—except that it must mean we are satisfying our customers. In a way, that is your assurance that we are doing our level best to give good stock, good service, and good values to our many friends.

The only reason that our customers stay with us is that we satisfy them. Our entire success is as simple as that. If we satisfy you, you too, are likely to continue to buy from us, and perhaps (we hope), recommend us to your friends.

We could publish letters from some of our well satisfied customers, but the important question is: **What are we going to do for you?** Now that brings us to the point. If you are not now one of our customers, **try us this spring.** Send for some of our **Roses**, or one of the sensational new **Almey Flowering Crab** trees, or any of the many items we grow—and see for yourself.

Remember—we grow all of this material with you in mind—you, and your gardening pleasure. Remember also that **you must be satisfied.**

Most cordially yours,

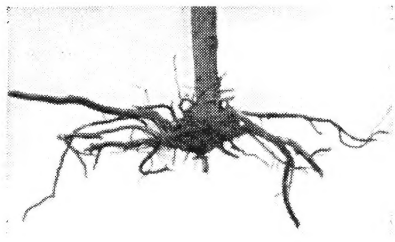

C. H. ANDREWS.

Here's "Proof Positive"

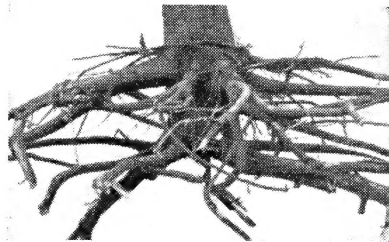

of why some orchard trees yield better and are strong and vigorous while others are crippled failures. This is picture evidence to prove that **Andrews Northern Rooted** trees are far superior to **common rooted** trees.

The pictures below show two root stocks from our 160-acre orchard where the test was made. We set 50 McIntosh apples propagated on our own **hardy northern root stocks** alternately with 50 trees propagated on **common roots**. Both lots of trees were the same size when planted and both received the same care through the 17 years until the pictures were taken.

After 17 years our **hardy Northern** rooted trees were at least three times as large as those on **common roots**. Many of the **common rooted** trees had died, but few of the **Northern**. The **common rooted** weaklings had borne little fruit and were a financial loss, while the **Northern** rooted trees were strong and sturdy and had borne regular and profitable crops.

This 17-year-old McIntosh was grafted on **common root stocks**. These roots died completely, leaving the tree to exist on the few "scion roots" above the graft. Result: weak or stunted growth—little or no fruit.

This 17-year-old McIntosh was grafted on our **Special Northern stocks**. The **hardy, sturdy root anchors** this tree securely in the ground. Result: **vigorous growth—heavy crops of fruit.**

We Pay the Postage!

Yes, we pay the postage. No need for you to wonder how much the shipping charges are going to be. We pay the postage—or express charges—on everything in this year's catalog except for a very few items such as shade and ornamental trees, evergreens, and the large quantities of raspberries. All the apples, plums, cherries, strawberries, bush fruits, roses, shrubs, and perennials come prepaid for shipping costs. If you order any of the not prepaid items they are sent express collect for the actual shipping charges. When an order includes both prepaid and not prepaid items we will send the entire order express collect, provided it all can be shipped together, but will include in your order some selected items that will be of greater value than the amount of the postage or express charges required for the prepaid items. However, if you would prefer to have the prepaid and not prepaid items sent separately, simply let us know and we will follow your instructions.

Bonus Plants for EARLY ORDERS!

Placed Before March 15th

Because it helps us to give you better service we would like to have as many early orders as possible, thus helping to ease the "planting time rush." Early orders are easier for us to handle, so we are willing to pass this saving along to you in the form of Bonus Plants, at no extra cost to you. If you send us your order for nursery stock before March 15th, you may select from the premium list at the right, one premium for each \$5.00 of your order. For example: If your order totals \$5.00, you may select one premium; if it totals \$10.00, you may select two, and so on.

- ① 3 Indian Summer Raspberry.
- ② 1 Fredonia Grape.
- ③ 1 Choice Iris.
- ④ 1 Blue Leaf Shrub. 18-24 in.
- ⑤ 1 Hybrid Day Lily.
- ⑥ 5 Glads (our choice).
- ⑦ 1 Choice Peony.
- ⑧ 1 Plum Tree. 2-3 ft. (our choice).

Our Guarantee to You

We guarantee that all our nursery stock will reach the purchaser alive and in good growing condition; and will replace, free of charge, any that does not. In the event of damage, we will appreciate your sending us your express or freight receipt with statement from the agent showing loss or damage, as this will help us in filing a claim with the transportation company.

Any tree or plant that dies the first growing season, we will replace at a cost of one-half the regular catalog price, customer to make report and have his order for replacement in our hands before October 10th following date of purchase. We guarantee to all our customers stock that is true-to-name and absolutely as represented. Any of our stock proven not to be, will be replaced free of charge or the purchase price refunded. It is mutually agreed by the purchaser and ourselves that we are not to be held liable for any damage other than herein named.

A Word About PLANT FOOD

For best results with any nursery stock, a systematic feeding program should be followed. We can heartily recommend the two plant foods listed on page 39. We urge you to use them, as they will add immeasurably to your gardening pleasure.

BERRY-SET

912-00

Here is something you'll want to try. Berry-Set makes berries grow much larger—often 50% to 100% BIGGER; MEATIER; SWEETER more luscious tasting. Increases berry yields greatly. Sprayed berry plants bear ripe fruits over a longer period of time; therefore gardeners enjoy a longer season and greater value from their berries. Easy to use, just mix with water. Complete instructions. 3-oz. pkt. \$1.00, prepaid.

907-00 ARAMITE 15W for Red Spider

Controls RED SPIDER and other mites on EVERGREENS, ROSES, shade trees, ornamentals and certain fruit crops such as apples, peaches, and grapes. Safe, sure, easy to use. Just mix with water and spray. 4-oz. pkg., \$1.00, prepaid, makes 16 gallons.

SUB-ZERO

Hybrid Tea Roses

BRED FOR THE NORTH

Why You Should Plant Sub-Zero Roses

Sub-Zero roses bring to the rose gardener a new race of hybrid tea roses equal to the best in form and color. But, being bred back to very hardy strains, Sub-Zeros possess a great deal more hardiness. Greater hardiness means more vigorous, longer lived plants. For the northern gardener, they are the very best—yet, they will do equally well in the South or East.

Tip Toes

Cedric Adams

Lily Pons

401-41 LILY PONS

The large graceful flowers of **Lily Pons** are white with a pale lemon-yellow shading in the center. A free flowering plant, it will produce upwards of a hundred perfectly formed flowers in a season. Plant Pat. No. 420. 2-yr., No. 1 plants, \$1.75 each; 3 for \$5.00; 12 for \$18.00. 2-yr. JUMBO plants, \$2.00 each; 3 for \$5.50; 12 for \$20.00, all prepaid.

401-10 CEDRIC ADAMS

Named for the Upper Mid-West's favorite radio personality, a lover of people and roses, this magnificent plant carries multitudes of large, completely double, scarlet to carmine roses. Truly an aristocrat of rosedom. (Prop. Rights Res.) 2-yr., No. 1 plants, \$1.75 each; 3 for \$5.00; 12 for \$18.00. 2-yr. JUMBO plants, \$2.00 each; 3 for \$5.50; 12 for \$20.00, all prepaid.

**Shades
of
Autumn**

401-67 SHADES of AUTUMN

An abundant and joyous expression of bi-colored beauty. You'll delight in its delicate red, yellow, and blush flower. A glowing rose developed for the northern gardener. Plant Pat. No. 542. 2-yr., No. 1 plants, \$1.75 each; 3 for \$5.00; 12 for \$18.00. 2-yr., JUMBO plants, \$2.00 each; 3 for \$5.50; 12 for \$20.00, all prepaid.

401-17 CURLY PINK

One of the very best of all pink roses. Once established, each stem produces several large two-toned pink blossoms forming a gorgeous bouquet on a single stem. Our customers have reported over 50 blooms on a plant at one time. Plant Pat. No. 842. 2-yr., No. 1 plants, \$1.75 each; 3 for \$5.00; 12 for \$18.00. 2-yr., JUMBO plants, \$2.00 each; 3 for \$5.50; 12 for \$20.00, all prepaid.

401-78 TIP TOES

One of the newest Sub-Zeros, Tip Toes, is bound to please. The large flowers are a delightful mixture of red, orange, and pink tints with an enjoyable spicelike fragrance. Very vigorous and nearly always in bloom. Plant Pat. No. 849. 2-yr., No. 1 plants, \$1.75 each; 3 for \$5.00; 12 for \$18.00. 2-yr., JUMBO plants, \$2.00 each; 3 for \$5.50; 12 for \$20.00, all prepaid.

401-19 DICK WILCOX

This magnificent new rose was named for Dick Wilcox, the well-known Minnesota rosarian. The plant is vigorous, disease resistant and one of the hardiest. Produces upwards of a hundred large completely double blooms, of a luxurious deep red year after year. Plant Pat. No. 845. 2-yr. No. 1 plants, \$1.75 each; 3 for \$5.00; 12 for \$18.00. 2-yr. JUMBO plants, \$2.00 each; 3 for \$5.50; 12 for \$20.00, all prepaid.

401-80 V for VICTORY

The large, very double, clear yellow blooms combined with its lovely fragrance makes this rose a favorite of all who have it. Constantly in bloom, it is a yellow that will not fade even in the hottest sun. Plant Pat. No. 543. 2-yr., No. 1 plants, \$1.75 each; 3 for \$5.00; 12 for \$18.00. 2-yr. JUMBO plants, \$2.00 each; 3 for \$5.50; 12 for \$20.00, all prepaid.

401-63 RED DUCHESS

An outstanding feature of Red Duchess is its spicy and charming fragrance. The striking red flower is large and a persistent bloomer. A sturdy and robust plant. Plant Pat. No. 846. 2-yr., No. 1 plants, \$1.75 each; 3 for \$5.00; 12 for \$18.00. 2-yr. JUMBO plants, \$2.00 each; 3 for \$5.50; 12 for \$20.00, all prepaid.

401-15 COUNTRY DOCTOR

This new Sub-Zero will go straight to your heart. It has large, very double blooms of a deep silvery pink with a satiny luster. The plant is upright, vigorous and free blooming. Plant Pat. Applied for. 2-yr., No. 1 plants, \$1.75 each; 3 for \$5.00; 12 for \$18.00. 2-yr. JUMBO plants, \$2.00 each; 3 for \$5.50; 12 for \$20.00, all prepaid.

Super Hardy

RUGOSA ROSES

Prices: 2-yr., field-grown plants, \$1.45 each; 3 for \$3.85;
12 for \$14.50, prepaid.

For extreme locations where no other roses will do well, plant the super hardy roses—they will not fail. The blooms are not as nice as the Sub-Zeros or other hybrid tea roses, but they definitely have a place. If you want a very colorful shrub in your landscape, or a rose for a severe location that never needs cover, the Rugosa will serve you well. Excellent also as hedge roses, especially the Hansa.

401-01 AMELIE GRAVEREAUX

An excellent red bloom that can be cut. Bush not as good as others.

401-06 BELLE POITEVINE

A lovely pale pink. Good vigorous bush.

401-20 DR. ECKENER

Large, fragrant salmon-pink flowers. Excellent variety.

401-33 F. J. GROOTENDORST

Small cherry-red blooms borne in clusters. Very good for hedges.

401-35 HANSA

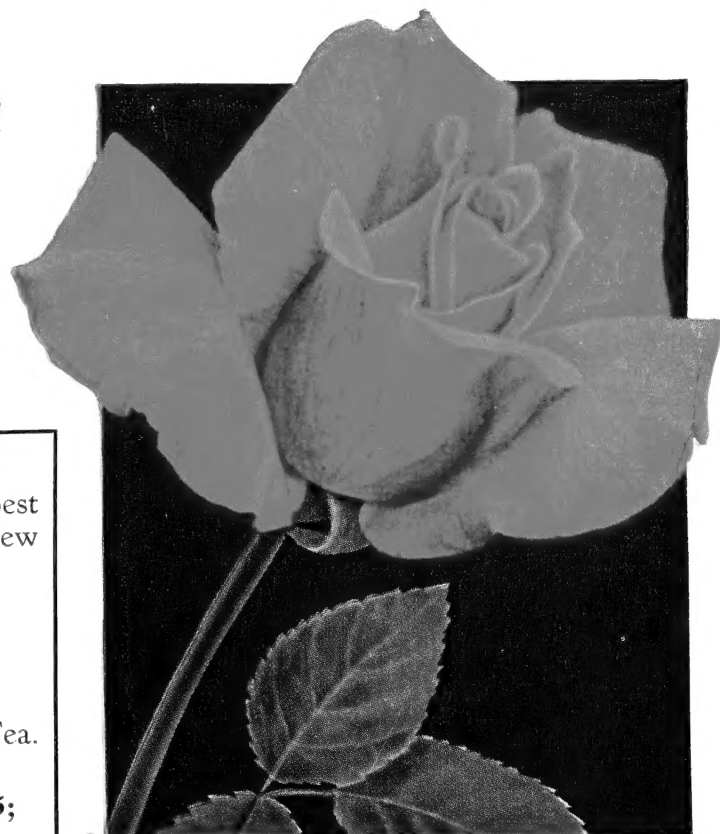

Very rugged bush with large crimson flowers.

404-07 HANSA HEDGE ROSES

Hansa is excellent for hedging. See page 19 for prices of the hedge size.

Belle Poitevine

Amelie Gravereaux

SOME POPULAR HYBRID TEA ROSES

Some of the older roses are still very popular and the best of them still belong in the rose garden. Below we list a few of the best.

401-28 Frau Karl Druschki. White Hybrid Perpetual.

401-12 Christopher Stone. Scarlet Hybrid Tea.

401-56 Picture. Pink Hybrid Tea.

401-30 Golden Dawn. Yellow Hybrid Tea.

401-13 Condesa de Sastago. Red and Yellow Hybrid Tea.

ROSE PRICES

2-yr., No. 1 field-grown plants: \$1.35 each; 3 for \$3.65;
12 for \$13.50, all prepaid.

SIX of AMERICA'S FINEST

401-68 SHOW GIRL

Show Girl

Show Girl was again the most popular dark pink rose in our gardens last summer. The buds are very long and perfectly formed. The color is a **deep, rich, but lively pink**. We know you will like Show Girl. Plant Pat. No. 646. \$1.75 each; 3 for \$4.65; 12 for \$18.60, all prepaid.

401-55 PEACE

It is impossible to show the exquisite beauty of Peace with a single photograph. You'll marvel at the dawnlike range of colors through which this rose passes. The buds are **golden yellow etched with pink**. As they open they turn canary-yellow, to pale gold, then to iridescent cream. Petals are etched with apple-blossom-

pink that deepens as the flowers slowly open to **glorious five-inch blooms**, borne on heavy stems above the mass of glossy, holly-like foliage. Truly one of the **best roses of all time**. Plant Pat. No. 591. \$2.50 each; 3 for \$6.60; 12 for \$25.00, all prepaid.

Peace

Nocturne

401-53 NOCTURNE

Nocturne has exquisitely long red buds, excitingly shaded with deeper tones. The color is **bright cardinal-red** with intriguing darker shadings of chrysanthemum-crimson, although somewhat lighter in hot weather. **Flowers are pleasantly fragrant**, have plenty of large, richly textured petals and last a long time. Stems are long, foliage large and luxuriant. You'll find this a big, sturdy, beautiful, bushy rose well adapted to all climates. Plant Pat. No. 713 \$1.75 each; 3 for \$4.65; 12 for \$18.60, all prepaid.

401-27 FORTY-NINER

A sensational rose! The most brilliant bi-colored rose being grown. Forty-Niner has been selected as one of the 10 best All-America winners. Don't be without this one. Plant Pat. No. 792. \$2.00 each; 3 for \$5.25; 12 for \$21.00, all prepaid.

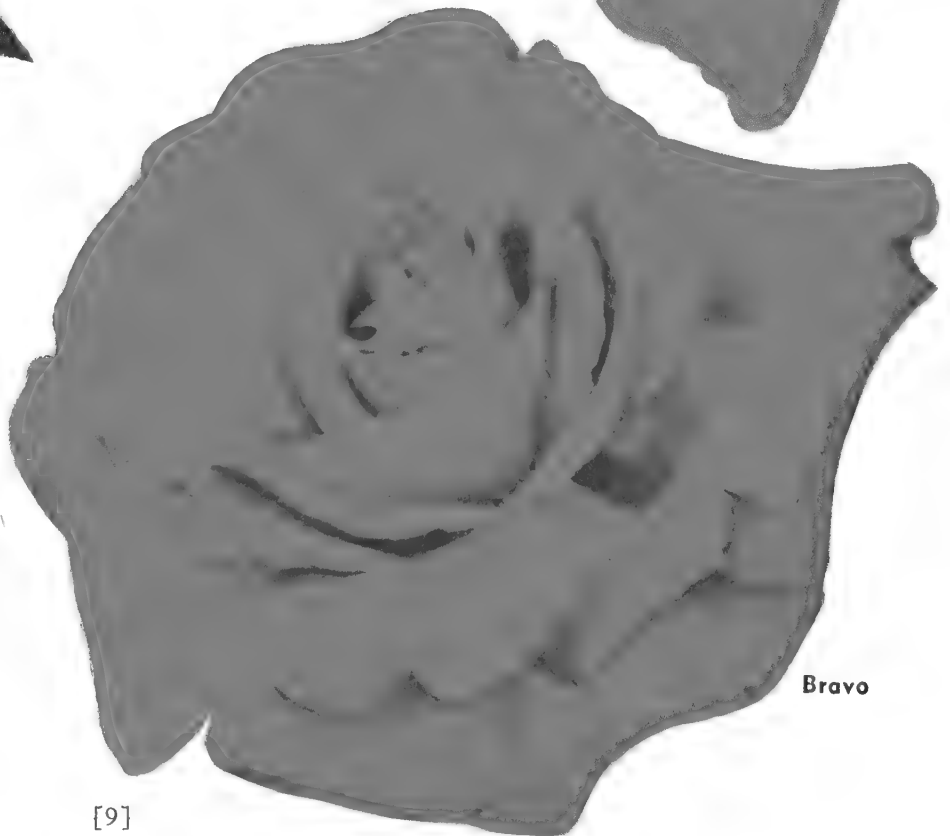

Forty-Niner

Sutter's Gold

401-72 SUTTER'S GOLD

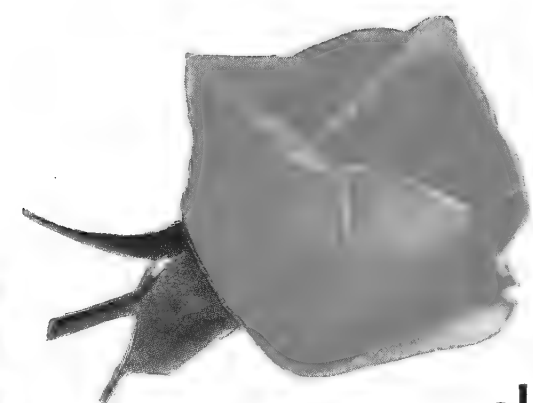

The outstanding feature of Sutter's Gold is its beautiful, long-pointed yellow bud, richly shaded with orange and red. The strong vigorous plant produces great quantities of these excellent buds, each just right for cutting. The rich tea fragrance is not found in any other yellow rose. Winner of All-America and International awards for excellence. Plant Pat. No. 885. \$2.25 each; 3 for \$6.00; 12 for \$24.00, all prepaid.

Bravo

401-07 BRAVO

A big bold red rose that will completely dominate the show at the peak of its bloom in the rose garden. The large blooms are a brilliant cardinal-red, and they hold their color even in the hottest weather. Plant Pat. No. 983. \$2.25 each; 3 for \$6.00; 12 for \$24.00, all prepaid.

Lovely Floribundas

HOW TO USE FLORIBUNDAS

Floribundas are striking when planted in solid beds, either formal or informal. They add charm to the perennial border and are distinctive when used as edgings for walks or drives. Can also be planted at the base of climbers.

401-59 PINOCCHIO

This bold little Floribunda will worm its way into your heart with its **hundreds** of jaunty, long lasting, **Miniature Tea Roses**, 1½ inches across.

All summer long great clusters of delicate salmon buds, flushed with gold at the base gradually soften to clear pink as the little "sweetheart" flowers open and take on deeper pink edges. In the garden **Pinocchio** is **ideal for edgings and mass plantings**. Incomparable for miniature flower arrangements and boutonnieres. Plant Pat. No. 484. \$1.50 each; 3 for \$3.75; 12 for \$15.00, all prepaid.

401-64 RED PINOCCHIO

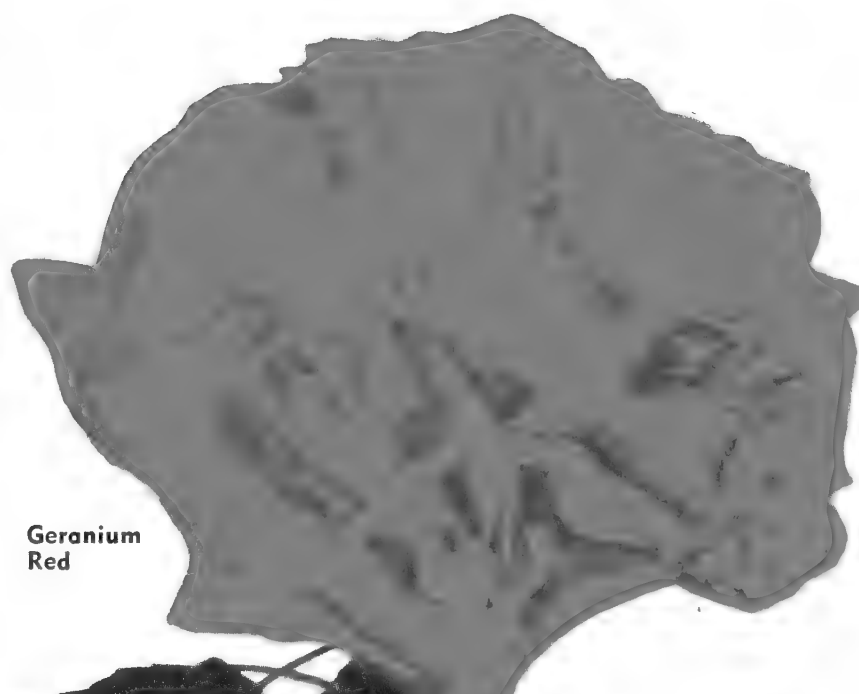

Red Pinocchio is **vivid red**. Three inch delightfully fragrant Roses are borne in large long lasting clusters. Buds are a rich carmine taking on a velvety hue as the flowers open. Plant Pat. No. 812. \$1.50 each; 3 for \$3.75; 12 for \$15.00 all prepaid.

401-84 YELLOW PINOCCHIO

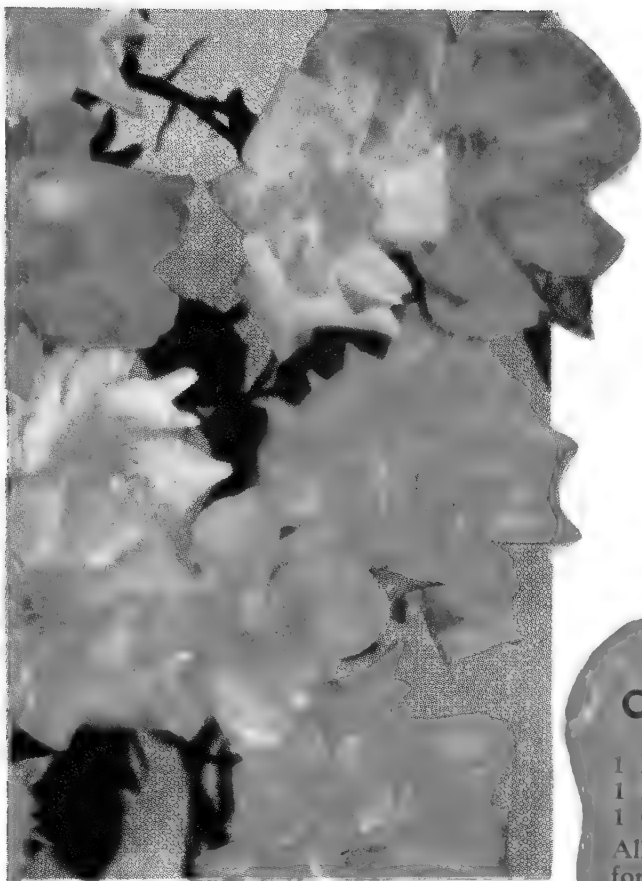

Another thrilling Pinocchio, this time in an **apricot-yellow** color. The plant is just as sturdy, just as healthy as its parent, and carries **great masses of blooms**. A very welcome addition to the Floribunda class. Plant Pat. No. 992. \$1.50 each; 3 for \$3.75; 12 for \$15.00, all prepaid.

Yellow
Pinocchio

Geranium
Red

Masquerade

401-47 MASQUERADE

Truly different, this unique new Floribunda has all these different colors on one plant! Each cluster of 10 to 25 buds shows blooms of red, yellow, pink, lemon and occasionally orange. Each bud is yellow with deep red markings. The center bud in the cluster opens first, turning to a rose-pink as the petals unfold; then, gradually it deepens to a deep red. Plant Pat. No. 975. \$2.00 each; 3 for \$5.00; 12 for \$20.00, all prepaid.

Fashion

401-39 KING BOREAS

A delightful, sub-zero Floribunda that is a lively, glistening yellow. Blooms are very double and are borne in clusters. Plants are hardy and very free flowering. Named in honor of the reigning king of the St. Paul Winter Carnival. (Propagation Rights Reserved.) 2-yr., No. 1 plants, \$1.75 each; 3 for \$5.00; 12 for \$18.00. 2-yr., Jumbo plants, \$2.00 each; 3 for \$5.50; 12 for \$20.00, prepaid.

401-25 FASHION

One of the finest Floribundas ever created, we know that you will prize your Fashion very highly. The blooms begin in June and continue as a gay and joyous display until frost. The Oriental red buds slowly diffuse into a coral, suffused with gold, as they open. Truly a champion. Plant Pat. No. 789. \$2.00 each; 3 for \$5.00; 12 for \$20.00, all prepaid.

401-32 GOLDILOCKS

This little 2½ ft. Floribunda will be a source of continual amazement to you as it spills it hundreds of perfectly formed, double, golden yellow flowers into your garden. Continuously in bloom, you will not want to miss having Goldilocks. Plant Pat. No. 672. \$1.50 each; 3 for \$3.75; 12 for \$15.00, prepaid.

401-83 WORLD'S FAIR

Clusters of large, velvety, scarlet flowers which almost hide the luxuriant foliage, will make this popular, rich red beauty one of your favorites. An almost continual display from spring until fall. Plant Pat. No. 362. \$1.50 each; 3 for \$3.75; 12 for \$15.00, all prepaid.

Goldilocks

401-29 GERANIUM RED

Here is an odd little fellow that we just love. Imagine a rose the color of a geranium—and even with the spicy fragrance of the geranium. The blooms, large for a floribunda—up to 4 inches—resemble camellias in form. We wouldn't want to be without this one and we are sure you won't either once you see it. Plant Pat. No. 811. \$1.50 each; 3 for \$3.75; 12 for \$15.00, all prepaid.

World's Fair

Golden Glow

401-31 GOLDEN GLOW

A sub-zero golden yellow, very fragrant climber that is equally good on a trellis or as a ground cover. Plant Pat. No. 263. \$1.75 each; 3 for \$5.00, prepaid.

White Dawn

Climbing Roses

Climbing roses properly placed can add loads of charm to any home. For planting on trellises, against sections of the house or garage, where there are no windows, they will reduce bareness and create color and beauty you never knew before. Excellent to train over arbors or gateways.

401-81

WHITE DAWN

America's finest everblooming white Climbing Rose. Produces hundreds of pure white completely double blooms resembling gardenias. Excellent for use in corsages. Blooms first year and is the most persistent of the climbers. Developed from cross between New Dawn and Sub-Zero Lily Pons by the University of Minnesota. \$2.00 each; 2 for \$3.75, all prepaid.

**401-09 CLIMBING
BREAK O' DAY**

A sub-zero climber with a beautiful orange-apricot shading that lends a very unusual touch to any garden. Plant Pat. No. 696. \$2.00 each; 3 for \$5.00, prepaid.

Paul's Scarlet

401-54 PAUL'S SCARLET

The most popular red climber. Produces brilliant masses of vivid, scarlet-red blooms that do not burn or fade. \$1.25 each; 2 for \$2.35, prepaid.

401-02 CL. AMERICAN BEAUTY

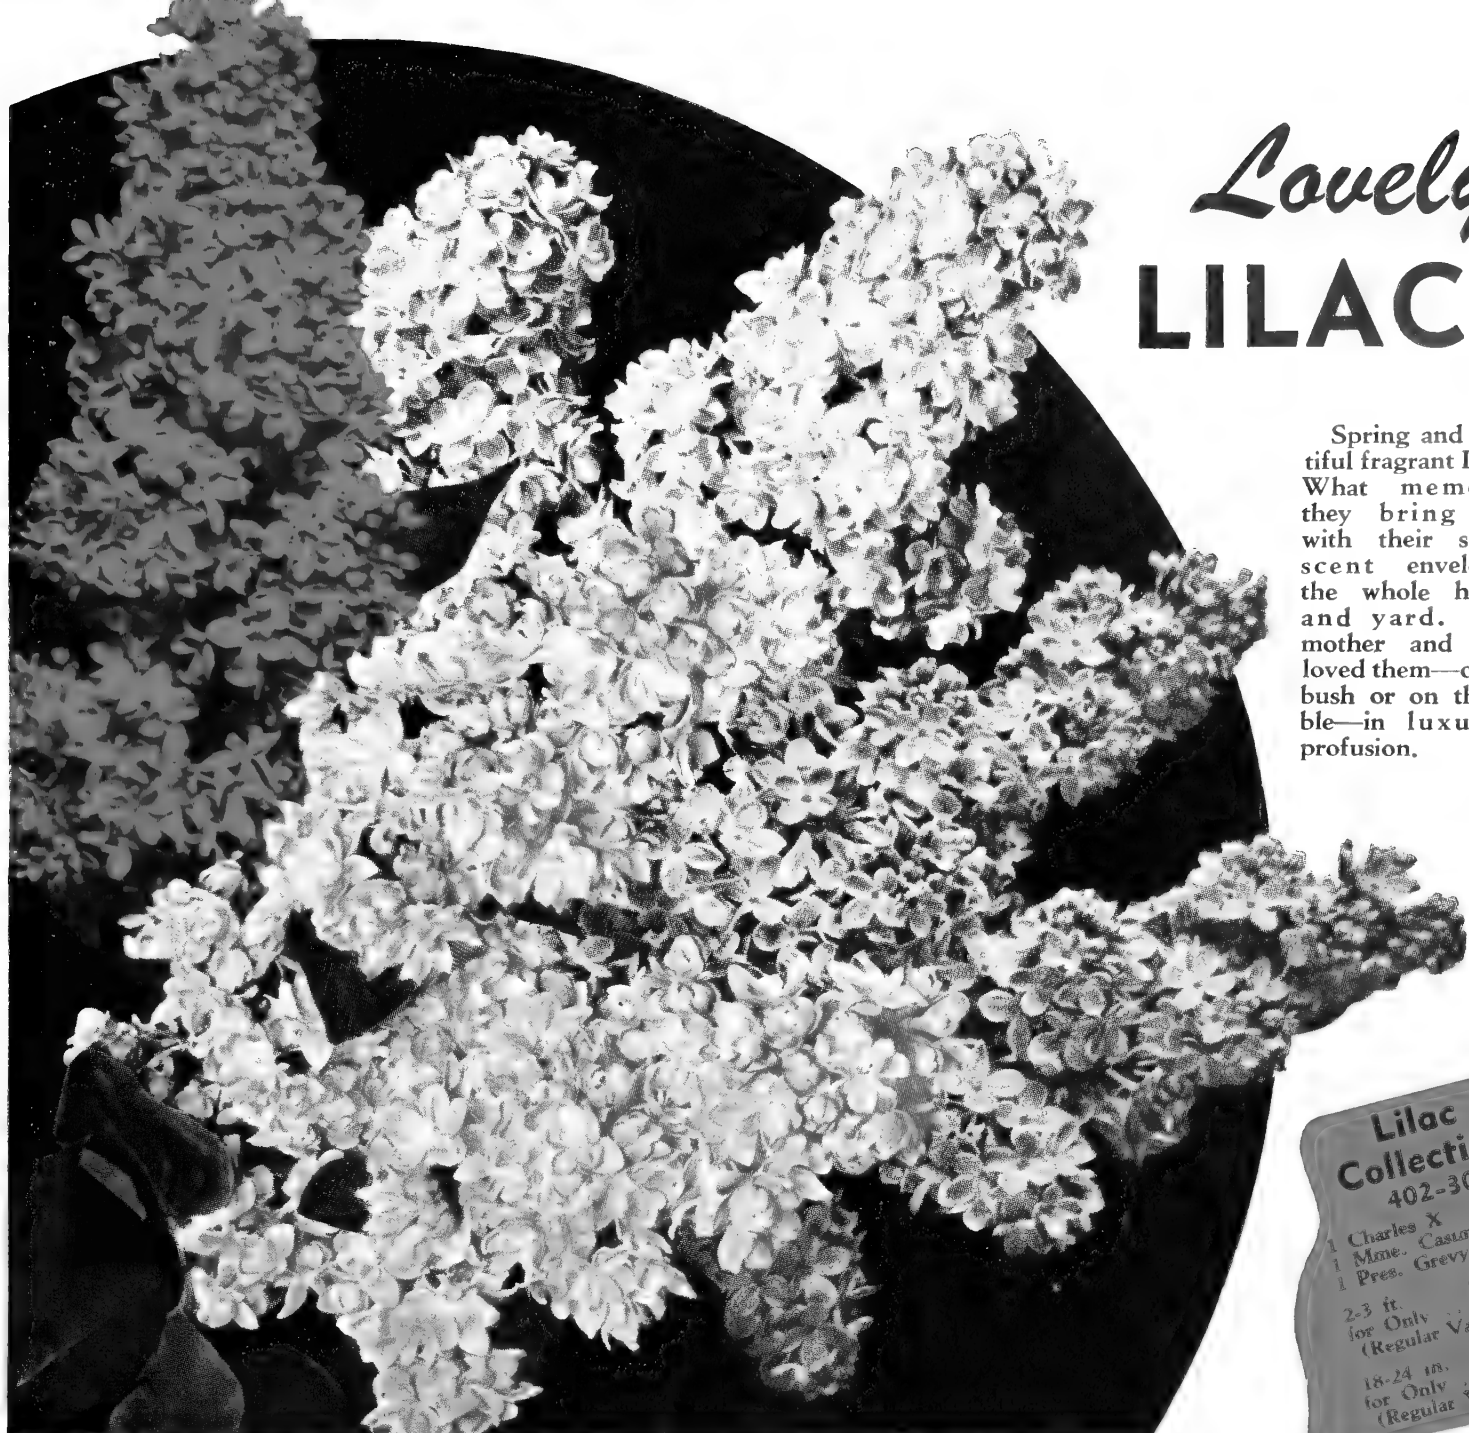

An old favorite climber with large, fragrant, deep rose-pink blossoms. 2-yr., No. 1 plants, \$1.25 each; 2 for \$2.35, prepaid.

401-51 NEW DAWN

The everblooming form of Dr. Van Fleet. Beautiful pale, shell-pink, very fragrant blooms are borne more abundantly than on any other climber with the exception of White Dawn. \$1.45 each; 2 for \$2.75, prepaid.

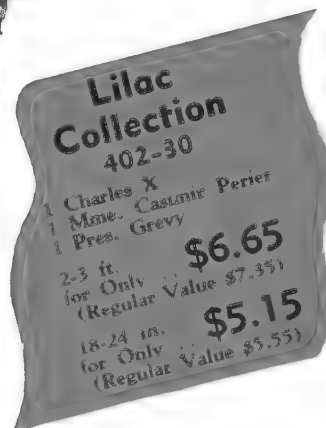

New Dawn

Lovely LILACS

Spring and beautiful fragrant Lilacs! What memories they bring back with their sweet scent enveloping the whole house and yard. Your mother and mine loved them—on the bush or on the table—in luxurious profusion.

French Lilacs:

Red—Charles X
Pink—Pres. Carnot

White—Mme. Casimir Perier
Blue—Pres. Grevy

FRENCH LILACS

Only in French Lilacs can you get such a wide variety of colors for those gorgeous mixed bouquets. They bloom earlier, have greater beauty, more fragrance, and more attractive foliage than the old common lilac.

402-04 CHARLES JOLY. One of the very best of the double dark reds. Large blooms.

402-06 CHARLES X. A beautiful single deep red. Blooms heavily and is one of the best for cutting.

402-17 MME. CASIMIR PERIER. A free blooming double white that is a strong grower and very dependable.

402-18 MME. LEMOINE. Large, pure white double blooms distinguish this excellent variety.

402-24 PRES. GREVY. A double with giant panicles of a clear, soft, delicate blue.

402-03 ALPHONSE LAVALLE. A double blue that is an excellent grower. One of the best.

402-23 PRES. CARNOT. A lovely double orchid-pink of indescribable delicacy.

402-26 THUNBERG. Very large, long slender spikes. Double blooms of a violet-mauve. Very striking.

French Lilac Prices—All Prepaid

	Each	3 for	12 for
Heavy 2-3 ft.	\$2.45	\$6.95	\$24.50
Heavy 18-24 in.	1.85	5.15	18.50

402-27 RED CHINESE LILAC (Rothomagensis)

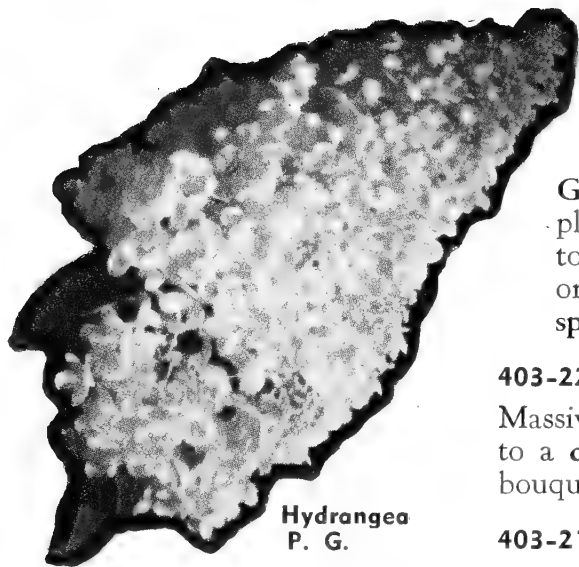

Sometimes called the Improved Persian, this lovely "lacy" Red Chinese variety is one of the most beautiful and showy lilacs in cultivation. Its strong, arching branches have distinctive narrow leaves and are profuse with large loose clusters of rich red flowers. Blooms just after the French Hybrids. Excellent for hedges and foundation plantings. Reaches 8 to 10 feet at maturity. Hardy in any climate and a colorful addition to your lilac collection. 2-3 ft., \$1.50 each; 3 for \$4.20; 12 for \$15.00. 18-24 in., \$1.25 each; 3 for \$3.55; 12 for \$12.50, all prepaid.

402-28 VILLOSA LILACS

A late blooming lilac that makes a wonderful display after all the other lilacs are through. From a distance it looks much like Red Chinese but is lighter in color and has distinctive leaves. Extremely hardy, Villosa is one of the best as a shrub or for growing in the wind-break. 2-3 ft., \$1.50 each; 3 for \$4.20; 12 for \$15.00. 18-24 in., \$1.25 each; 3 for \$3.55; 12 for \$12.50, all prepaid.

Flowering Shrubs to

Good Gardening Means Good Living. Trees and shrubs well chosen and placed make a house a home. A carefully selected list of flowers will add to the **color and charm** of your home and will provide flowers for border or bouquet from spring until frost. **Add to your home by planting this spring.**

Hydrangea
P. G.

403-22 HYDRANGEA P. G.

Massive, **snowy white**, cone-shaped flowers in August and September turn to a **coppery pink** as they mature. Dried blossom heads make fine winter bouquets. 18-24 in., \$1.35 each; 3 for \$3.85, prepaid.

403-21 HYDRANGEA A. G.

Large, **pure white** blooms like snowballs from June until August. Grows 3 to 4 feet tall. **Hardy**, thrives anywhere. Does especially well in shade. Should be cut back to within 8 inches of the ground each spring for best flowering results. 18-24 in., \$1.35 each; 3 for \$3.85, prepaid.

403-17 FORSYTHIA (Golden Bell)

Earliest shrub to bloom, Forsythia has great masses of **bright yellow** flowers before the leaves appear. Foliage is a rich dark green. Grows to about 5 feet. Should be protected in Minnesota. 2-3 ft., \$1.35; 3 for \$3.85. 18-24 in., \$1.00 each; 3 for \$2.80, prepaid.

403-52 WEIGELA EVA RATHKE

Visitors will admire this excellent border and foundation shrub. In the spring it is covered with **red trumpet-shaped** flowers. Grows to be from 4 to 5 feet high. 2-3 ft., \$1.60; 3 for \$4.55. 18-24 in., \$1.30 each; 3 for \$3.65, prepaid.

403-54 BLUE LEAF SHRUB

A very charming shrub with **silvery blue-green** foliage. Grown primarily for hedging (see page 19) but we have had such a demand for shrub sizes that we have grown some longer for that purpose. Grows only 3 to 4 feet high and is extremely hardy. Very colorful when worked in with such things as Golden Elder or Red Flash. 2-3 ft., \$1.10 each; 3 for \$3.10. 18-24 in., 90c each; 3 for \$2.45, prepaid.

Forsythia

Golden Elder

403-16 GOLDEN ELDER

The **bright yellow-green** foliage contrasts richly with the green of other shrubs and even more so with such shrubs as Red Flash, and the Blue Leaf Shrub. From a distance it looks like a continuous bloom of yellow flowers all summer. Very hardy and grows rapidly. Grows to be 6 or 7 feet tall. 3-4 ft., \$1.50 each; 3 for \$4.20. 2-3 ft., \$1.25 each; 3 for \$3.55, prepaid.

403-32 ROSE TREE OF CHINA (Prunus Triloba)

Branches are hidden under a fleecy cloud of **bright pink double** blossoms resembling small pink roses, even before leaves are out in the spring. A breath-taking sight in full bloom, especially when it reaches full height of about 6 feet. Should be included in every yard. **Very hardy** and easy to grow. 3-4 ft., \$2.55 each; 3 for \$7.35. 2-3 ft., \$2.25 each; 3 for \$6.45, prepaid.

Brighten Your Home

403-28 **MOCKORANGE, Virginal**

One of the most popular shrubs for landscaping. The bushes are filled with **large, lovely pure white** semi-double flowers with **orange blossom fragrance**. Virginal is a neat, **semi-dwarf** shrub growing only 6 to 7 feet tall. Can be easily kept lower by trimming. Blooms profusely in May and June. Widely planted for years because it is trim and beautiful—easy to grow—hardy and vigorous. Very useful for screens, backgrounds and fillers as well as for specimen shrubs. 2-3 ft., \$1.70 each; 3 for \$4.85, prepaid. 18-24 in., \$1.35 each; 3 for \$3.85, prepaid.

403-27 **MOCKORANGE, Snowflake**

The new, hardy, fast growing Minnesota Snowflake Mockorange has pure white flowers that are completely double and exceptionally sweet scented. Makes a shapely graceful specimen shrub with a profusion of fragrant blooms in mid-summer. Will reach 8 to 10 ft. tall but can be held smaller by trimming and will still bloom readily. Plant Pat. No. 538. 2-3 ft., \$1.85 each; 3 for \$5.15, prepaid. 18-24 in., \$1.55 each; 3 for \$4.45, prepaid.

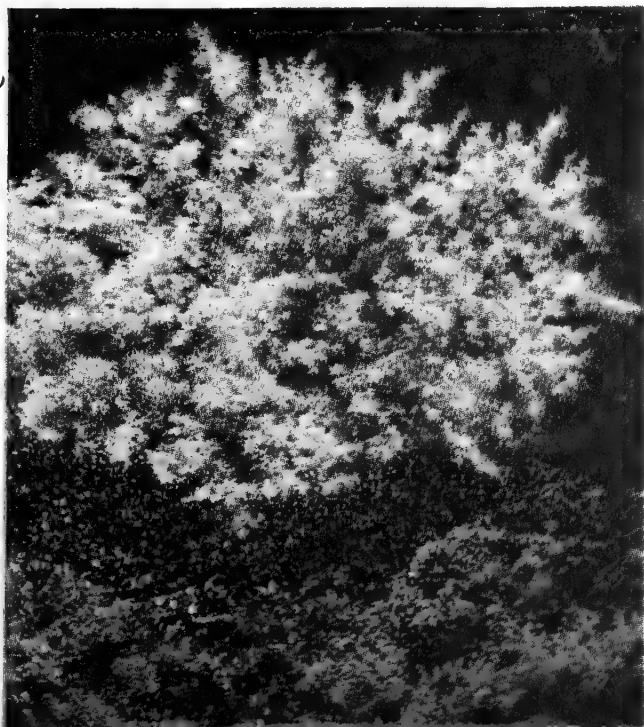

403-25 **MOCK ORANGE Coronarius**

The old favorite Mockorange. The size is greater than Virginal or Snowflake and for screening purposes it is better. However, for foundation planting around the house the other two are to be preferred. Coronarius is a spreading shrub of 8 to 10 feet in height with single, but **very fragrant blooms**. Attractive foliage makes it perfect for background work or for screening. 2-3 ft., \$1.25 each; 3 for \$3.55 prepaid. 18-24 in., 95c each; 3 for \$2.55, prepaid.

Andrews' Landscape Service

If you would like professional help with your landscaping, we will, upon request, send you some drawing paper with directions for drawing your house and lot to scale. From this rough sketch our expert landscape draftsmen finish a complete planting plan with suggestions of trees and shrubs best suited to your soil. For this service, we make a charge of \$5.00. However, if your order for nursery stock for the season amounts to \$50.00 or more, the charge is deducted from the total, thus making the service free. No plans can be prepared after April 1st.

Russian Olive

403-33 **RUSSIAN OLIVE**

The charming silver-gray foliage of Russian Olive lends a **pleasing contrast** to deeper greens. It makes a **good background**, too, for red-leaved shrubs like Red Leaf Barberry and Red Flash. In spring it is covered with small, **very fragrant**, yellow flowers followed by small berries that attract birds. Picturesque when bare in winter. **Grows anywhere**, reaching a height of a small tree in some sections, or a large shrub in the North. 2-3 ft., \$1.25 each; 3 for \$3.35, prepaid. 18-24 in., 95c each; 3 for \$2.55, prepaid.

[15]

Mockorange, Virginal

403-31 **RED FLASH (Prunus Cistena)**

Purple-Leaved Cherry. The most brilliant of all the larger red-leaved shrubs. The delicate pink blooms in early spring are followed by rich red leaves that last throughout the season. It will achieve its best color when planted in full sunlight. Red Flash cannot be surpassed for yard or foundation planting, where a distinctive spot of unusual coloring is desired. Especially attractive when grouped with such shrubs as Russian Olive or Golden Leaf Elder. 18-24 in., \$1.65 each; 3 for \$4.65, prepaid. 15-18 in., \$1.20 each; 3 for \$3.35, prepaid.

Andrews

COLORFUL SHRUBS

Tamarix

403-47 ARROWWOOD (Viburnum Dentatum)

A very popular shrub. Deeply cut leaves and beautiful 3-inch white flowers make Arrowwood a perfect shrub border or for medium sized screens. Very hardy and not too particular as to soil conditions. 2-3 ft., \$1.35 each; 3 for \$3.85, prepaid. 18-24 in., \$1.10 each; 3 for \$3.10, prepaid.

Arrowwood

403-46 TAMARIX

A charming 5- to 7-ft. shrub with lace-like silvery blue foliage and large clusters of bright pink flowers giving a pink and silver mist effect. Outstanding. 2-3 ft., \$1.10 each; 3 for \$3.10, prepaid. 18-24 in., 90c each; 3 for \$2.45, prepaid.

403-35 CORALBERRY

Dwarf foundation shrub. The small red fruits are so thickly clustered that the branches droop under the load. Very graceful and attractive. 2-3 ft., \$1.00 each; 3 for \$2.80, prepaid. 18-24 in., 85c each; 3 for \$2.35, prepaid.

403-15 ALPINE CURRANT

A gem of a dwarf shrub. Extremely rugged and hardy. The best shrub for shady areas. Very dense growing with fine, dark green leaves. Small fragrant yellow flowers are borne in May. Shrub grows to be 3 to 4 feet. 15-18 in., \$1.45 each; 3 for \$4.15, prepaid. 12-15 in., \$1.10 each; 3 for \$3.10, prepaid.

403-29 DWARF NINEBARK

A new strain of Ninebark only 3 to 4 feet high that produces lovely white flowers in June. Reddish berries turn dark purple during summer. Fall coloring of foliage is brilliant red and yellow. Outstanding for specimen shrubs or hedges. 2-3 ft., \$1.25 each; 3 for \$3.55, prepaid. 18-24 in., \$1.00 each; 3 for \$2.80, prepaid.

403-14 COTONEASTER

A very attractive shrub with glossy dark green leaves that turn a brilliant red in the fall. Stands shearing well and will do better than most in the shade. 2-3 ft., \$1.45 each; 3 for \$4.15, prepaid. 18-24 in., \$1.15 each; 3 for \$3.15, prepaid.

403-24 JUNE BERRY

Fruit of the Juneberry resembles the blueberry although the bush will grow almost anywhere. Glossy green leaves make it an attractive shrub for the landscape. Fruit is good for jam, jelly, and pies. Very hardy. Plant at least two to insure fruit. 18-24 in., \$1.25 each; 3 for \$3.55, prepaid. 12-18 in., \$1.05 each; 3 for \$2.95, prepaid.

Snowberry

403-36 SNOWBERRY

Beautiful rose-pink blossoms are followed by pearly white berries that will attract birds and cling well into winter. Does well in the shade and is small, attaining a height of only 3 to 4 feet. 2-3 ft., \$1.00 each; 3 for \$2.80, prepaid. 18-24 in., 75c each; 3 for \$2.00, prepaid.

Dwarf Ninebark

Juneberry

403-06 **GREEN BARBERRY**

Well liked for foundation planting at the base of evergreens and for hedges (see page 19). Bright green foliage turns **bright red in autumn**. Very hardy and only about 3 feet tall. 18-24 in., 85c each; 3 for \$2.35. 15-18 in., 65c; 3 for \$1.75, prepaid.

Red-Leaf Barberry

403-12 **RED-TWIG DOGWOOD**

A spreading shrub with **bright red bark** which adds a burst of color to your plantings in the winter. In summer it has bright green foliage and creamy white flowers. Grows to a height of 6 to 7 feet. Very hardy and **does well in shade**. 2-3 ft., \$1.35 each; 3 for \$3.85. 18-24 in., \$1.00 each; 3 for \$2.80, prepaid.

403-13 **VARIEGATED DOGWOOD**

A very attractive shrub that should be used more. The **dark red bark** is a winter attraction while in summer its **variegated green and white leaves** are very catchy. Normal height, 5 to 6 feet. 2-3 ft., \$2.45 each; 3 for \$6.95. 18-24 in., \$1.85 each; 3 for \$5.15, prepaid.

403-05 **RED-LEAF BARBERRY**

Planted in the sun, this colorful 2-ft. shrub has **bright red foliage** in spring and summer, deepening to a **dark crimson** in the fall. Its attractive red berries hang on all winter. Striking. 15-18 in., \$1.05 each; 3 for \$2.95. 12-15 in., 85c each; 3 for \$2.35, prepaid.

SPIREAS

403-37 **SPIREA Anthony Waterer**

A popular dwarf shrub with **rosy red blooms** borne freely in July. Fine for low foundation plantings or in the foreground of the shrub border. 15-18 in., \$1.10 each; 3 for \$3.10. 12-15 in., 95c each; 3 for \$2.55, prepaid.

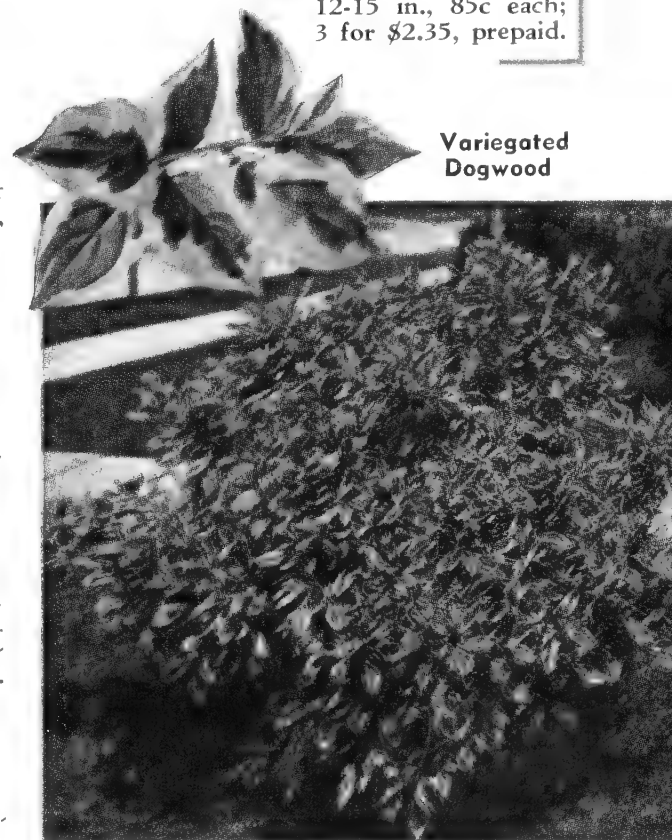

Spirea Billiardi

403-38 **SPIREA Billiardi**

A very delightful shrub of medium height and upright habit. Long **pink spikes** with a white fringe that gives it a frosty appearance distinguish the bloom. Excellent for both foundation and border planting. 18-24 in., 90c each; 3 for \$2.45. 2-3 ft., \$1.15 each; 3 for \$3.15.

403-42 **SPIREA Snowgarland**

Smaller, and blooms earlier than Bridal Wreath. Just covered with white flowers when in bloom. **Orange-scarlet foliage** in fall makes it most impressive. 18-24 in., \$1.00 each; 3 for \$2.80. 12-18 in., 85c each; 3 for \$2.35, prepaid.

Variegated Dogwood

403-44 **SPIREA Van Houttei (Bridal Wreath)**

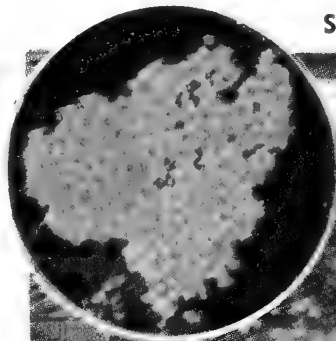

This graceful old favorite, a solid mass of white in spring, needs no introduction. Grows anywhere and reaches a height of 5 to 6 feet. 2-3 ft., 95c each; 3 for \$2.55. 18-24 in., 75c each; 3 for \$2.00, prepaid.

SPIREA Froebeli

403-39

The Outstanding DWARF Spirea

This shrub is very popular where a low colorful plant is wanted such as under windows, or in front of tall evergreens by the doorway or corners of the house. **Bright, rosy red flowers** in flat clusters are produced in July and August. The foliage is very attractive, turning to a striking **purple-red** in the fall. Closely resembles Anthony Waterer Spirea, but is hardier, more colorful in autumn, and is very drought resistant. **Grows anywhere**. One of the finest and most popular border shrubs. 18-24 in., \$1.00 each; 3 for \$2.80; 6 for \$4.95, prepaid.

Spirea Froebeli

4 Great Shrubs

403-20 HONEYSUCKLE Zabeli

Strongest red flowers of all the honeysuckles! Red flowers in May are followed by **bright red berries** set off well by the deep green leaves. A beautiful shrub destined to replace the pink honeysuckles because of its colorfulness. Excellent as single shrub, or for screens and hedges. 2-3 ft., \$1.45 each; 3 for \$4.15. 18-24 in., \$1.20 each; 3 for \$3.35.

403-51 HIGH BUSH CRANBERRY

Here's a handsome background shrub with attractive **bright red berries** that make a delicious, pleasantly tart jelly. Grows to 6 or 7 feet with slender, graceful, drooping branches. Has attractive single white flowers in May or June. The **large clusters of scarlet berries** will stay on into the winter. Berries can be used alone or in combination with other fruits. Beautiful, bright green **foliage turns to rich red** in autumn. 2-3 ft., \$1.45 each; 3 for \$4.15, prepaid.

403-10 DWARF WINGED-BARK BURNING BUSH (Euonymus Alatus Compacta)

A new, dwarf, compact form of the regular Winged-Bark Burning Bush, growing to only about 5 feet. **Winged, corklike branches**, small yellow flowers, borne in May-June, followed by red fruits and **vivid crimson autumn foliage**, distinguish this aristocrat of ornamental shrubs. Very hardy and truly an **outstanding** new shrub. 18-24 in., \$3.25 each, postpaid.

Honeysuckle, Zabeli

Be sure
to use
Gro-Mulch
when
planting

Snowball

403-50 SNOWBALL

An outstanding shrub that is very well liked. The **huge white blooms**, resembling large snowballs account for the name. In leaf resembles the High Bush Cranberry, but does not carry the red berries. 2-3 ft., \$1.45 each; 3 for \$4.15. 18-24 in., \$1.20 each; 3 for \$3.35.

The Ever-Popular Highbush Cranberry

Dwarf Winged-Bark Burning Bush

HEDGES

for Beauty and Privacy

No one would fancy living in a goldfish bowl. That's why we plant hedges—low hedges in the front yard and tall hedges in the back yard or outdoor living room. We want privacy in our outdoor rooms just as we do inside. Hedges are the walls we use in our outdoor rooms.

For complete privacy in the back yard use the taller, fast growing kinds such as Honeysuckle or Chinese Hedgewood. For partial privacy in the front yard use the lower growing sorts: Dwarf Ninebark, Blue Leaf Hedge, or Barberry.

LOW or DWARF HEDGES

404-14 DWARF BLUE LEAF HEDGE

A striking new, **silvery blue-green** hedge plant that is very hardy. As unusual as it is beautiful, we know that you will love this charming plant. If left untrimmed its feathery willowy foliage makes a beautiful informal hedge 3 to 4 feet tall and 2 to 3 feet wide. Trimmed, it makes a colorful, low, formal hedge. Just the thing for low edgings around beds or walks. See page 14 for single specimens. Plant 12 inches apart.

	All Prepaid	25	50	100
12-18 in.	\$7.35	\$13.85	\$26.35	

404-02 GREEN BARBERRY

A colorful shrub of low, spreading growth that makes a compact hedge. Foliage is **bright green** turning to a fiery red in the fall. Attractive red berries add enchantment throughout fall and winter. For best results plant 12 inches apart.

	All Prepaid	25	50	100

Green Barberry

Dwarf Blue Hedge

CROSS SECTION OF A MODERN MONEY- MAKING WIND- BREAK

Section 1
Snowcatch

Section 2
4 Rows of Deciduous Trees

Section 3
4 Rows of Evergreens

It might be said that the **Standard Windbreak** consists of three sections. **Section 1** is the snow catch, a double row of trees such as Chinese Elm, Laurel Leaf Willow or Golden Willow, designed to act as a large, permanent snow fence and to drop the snow before it can reach the buildings and clog up your drives.

Section 2 is planted 60 feet inside the snow catch leaving a good sized snow trap, which area can be utilized during the summer for the garden or home orchard. Section 2 consists of 4 rows of hardwoods—2 rows of fast growing trees such as Norway Poplar and soft Maple alternated with 2 rows of slower growing trees such as American Elm and Green Ash. **Section 3**, or the backbone of the windbreak, is planted in-

side section 2 and is made up of 4 rows of evergreens. These are slower growing, of course, and do not make their contribution as quickly as do the trees in sections 1 and 2.

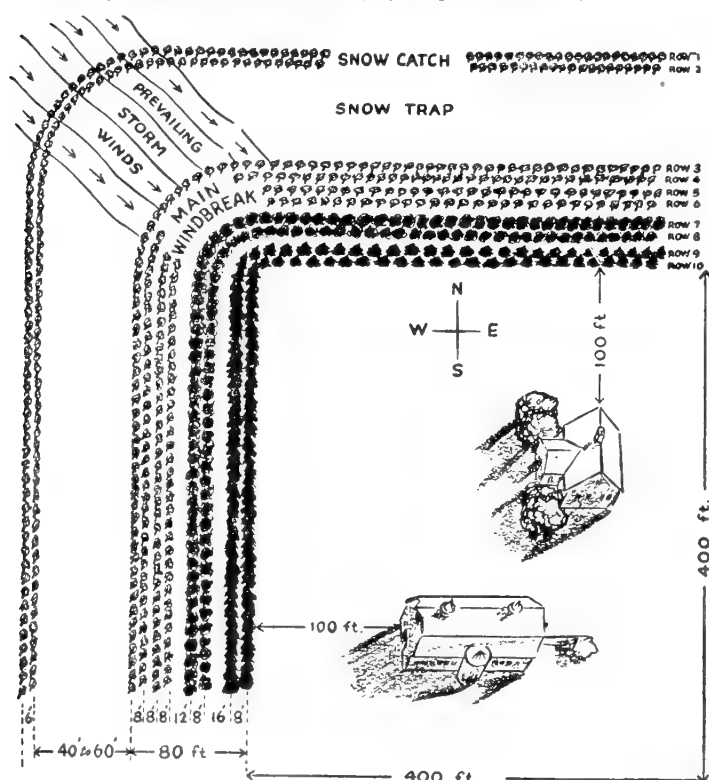

If it is not practical to plant the entire windbreak at once, we would recommend first planting section 2, then section 1 (the snow catch) and then section 3 in order to get the most good in the least amount of time.

In section 1 plant trees 4 feet apart with 6 feet between rows. In section 2 plant trees 6 feet apart with 8 feet between rows. In section 3 plant trees 8 to 10 feet apart, with 10 to 16 feet between rows. We will be glad to help with the planning of your windbreak if you send us the measurements of the available space.

ANDREWS WINDBREAKS

AND SHELTERBELTS

THE STANDARD MINNESOTA WINDBREAK

Varieties Suitable for Each Row

Rows 1 and 2 Chinese Elm, Laurel Leaf Willow, or Golden Willow
Rows 3 and 5 Norway Poplar or Soft Maple
Rows 4 and 6 American Elm or Ash
Rows 7, 8, 9, and 10 Evergreens—page 21

301-01 GREEN ASH. Most dependable for windbreak or woodlot—will grow on almost any soil. Fast growing, long lived, excellent for lumber or fence posts. A hardy Dakota strain that is dense, durable and drought-resistant.

Save Feed With Windbreaks Says U. S. D. A.

Less feed and labor are required to produce beef in feedlots protected by shelterbelts or windbreaks, say the United States Department of Agriculture and the Soil Conservation Service. After a series of experiments the SCS came to the conclusion that your windbreak area will produce more beef than the same area planted to a feed crop.

The same is true with your dairy cows, chickens and pigs. Each will produce more when protected from winter's sweeping winds. Your house will require less fuel and you will have less drifting of snow in the farmyard, too.

If your farmstead is not protected, you have probably paid out more in fuel and feed costs than the cost of a windbreak—and you still don't have it! Moreover, you miss a constant source of firewood, lumber and posts. Let us help plan a shelterbelt to fit your needs.

Norway Poplar—three years after planting

Protected Steers Make \$240 Extra!

In a comparative test some years ago, two lots of 50 steers each were fed the same kind and amount of feed, but one lot was protected with a windbreak, the other unprotected. The protected lot gained 2,250 pounds more. Sold at \$10.80 per cwt., this lot brought \$243.00 more.

ARE COMMON-SENSE

MONEY-MAKERS

301-12 RUSSIAN OLIVE. The beautiful silver-leaved tree—a fine ornamental as well as an excellent shelterbelt tree. Branches, from the ground up, make it useful for the "snow catch" rows of the shelterbelt. Has fragrant yellow flowers followed by berries attractive to birds.

All Prepaid	25	50	100	200

12-18 in.	2.55	4.85	9.15	17.35

301-11 NORWAY POPLAR. Outstanding for windbreaks because of its hardiness and rapid growth. **Grows on any soil;** begins giving protection the second year after planting; makes posts and lumber, too.

All Prepaid	25	50	100	200
4-5 ft.	\$5.95	\$10.85	\$20.65	\$39.25
3-4 ft.	4.85	9.45	17.95	34.15

301-14 RUSSIAN GOLDEN WILLOW. This hardy, fast growing willow has an attractive bright yellow bark. In mass plantings they are very colorful, especially in winter. Provides a crop of firewood in a hurry, too.

All Prepaid	25	50	100	200
4-5 ft.	\$4.85	\$9.45	\$17.95	\$34.15
3-4 ft.	3.65	6.85	12.55	23.85

301-15 LAUREL LEAF WILLOW. The best willow for windbreak work. Branches provide dense, glossy, dark green foliage from the ground up—ideal for the two outside rows of the windbreak as a snow-catch. Leaves stay on late in the fall for added protection. Planted 3 feet apart and 60 to 100 feet from a roadway, Laurel Leaf makes a beautiful addition to the landscape over the years. It also provides a natural and inexpensive snow fence.

301-13 BLACK WALNUT. This is a hardy strain of the Minnesota Black Walnut that is easy to grow and fine for shelterbelts. The delicious nuts produced are excellent in cooking. Black Walnut logs are extremely valuable for their high quality lumber.

All Prepaid	25	50	100	200
12-18 in.	\$2.55	\$4.85	\$9.15	\$17.35

EVERGREENS

For the inside 2 to 4 rows evergreens should be used. They are very permanent and give extra protection during the winter. They will not do as much good during the early years of the shelterbelt, but their existence will make your planting more permanent. For rows 7 and 8, use Red Pine. For rows 9 and 10 use Arbor-Vitae or White Spruce.

305-01 AMERICAN ARBOR-VITAE. (For Windbreak and Hedging.) This popular, thick, compact evergreen makes an excellent windbreaker, snow stopper, or year-round hedge or screen. Its large, flat, dense branches hugging the ground make it useful for the inside row or two of the windbreak. Does best in fairly moist soil.

Not Prepaid	10	25	50	100
4-yr. trees, 12-14 in.	\$3.00	\$6.25	\$11.85	\$22.65

305-07 WHITE SPRUCE. This tree might be considered our most common native spruce. It thrives in all northern climates from the Arctic Circle to central U. S. A. Foliage is bluish green to bluish coloring. A compact, regular growing tree of conical shape. Very attractive even when small. Maximum height, 50 feet. Thrives even in hot, dry climates. Beside its value as an ornamental tree, windbreak, background tree or screen, it makes an excellent hedge.

Not Prepaid	10	25	50	100

Northern Grown

RED

602-03 BLACK OPAL. A fine, tall, deep maroon to black Glad that opens 9 to 10 round florets on long spikes. Contrasts with white beautifully. Midseason. 3 for 45c; 6 for 75c; 12 for \$1.35; 25 for \$2.45, prepaid.

602-10 KENWOOD. A very large, pure red. The tall spikes carry a generous number of florets. We believe Kenwood is one of the best reds. 3 for 45c; 6 for 75c; 12 for \$1.35; 25 for \$2.45, prepaid.

602-19 STOPLIGHT. Red. Tall, handsome spikes each with 6 to 8 exquisitely ruffled florets of brilliant red with a rich, velvety luster. 3 for 45c; 6 for 75c; 12 for \$1.35; 25 for \$2.45, prepaid.

602-06 BURMA. One of the greatest reds. Flowers are very ruffled. Becoming very popular. To see it is to love it. 3 for 45c; 6 for 75c; 12 for \$1.35; 25 for \$2.45, prepaid.

LAVENDER

602-07 ELIZABETH THE QUEEN. New, and a best seller. Flowers are large, exquisite mauve, and beautifully ruffled, with darker lines in the throat. Open 7 to 8 blooms at a time. Makes a fine garden variety. 3 for 45c; 6 for 75c; 12 for \$1.35; 25 for \$2.45, prepaid.

602-09 FAIRYLAND. A tall magnificent lavender with a cream throat. A little later than most. A prize winner in any garden 3 for 45c; 6 for 75c; 12 for \$1.35; 25 for \$2.45, prepaid.

PINK

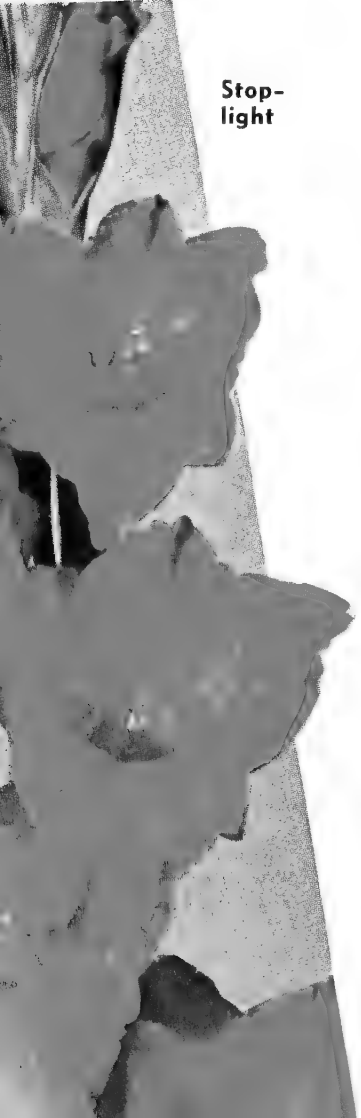

602-08 ETHEL CAVE COLE. Immense flowers of pure, lovely, light pink, set off by a deeper rosy throat. Makes a fine cut flower and exhibition spike. Strong, husky grower that opens 8 to 10 blooms on a long flower head. 3 for 45c; 6 for 75c; 12 for \$1.35; 25 for \$2.45, prepaid.

602-14 PANDORA. A rather new variety that is a very fine coral-pink with a small inconspicuous blotch. 3 for 45c; 6 for 75c; 12 for \$1.35; 25 for \$2.45, prepaid.

CREAM

602-20 WHITE GOLD. Has a giant spike with 6 to 8 enormous slightly ruffled flowers of triangular shape, opening at once. Creamy white with a golden throat. An early bloomer and a good grower. 3 for 45c; 6 for 75c; 12 for \$1.35; 25 for \$2.45, prepaid.

On orders of less than \$1.50, please include 15c to help defray the cost of packing and mailing.

GLADIOLUS

WHITE

602-17 SNOW PRINCESS. A creamy white with 5 or 6 giant 5-inch blooms opening at once on tall, strong spikes. Reliable and prolific. Our leading commercial white. 3 for 45c; 6 for 75c; 12 for \$1.35; 25 for \$2.45, prepaid.

602-21 MARGARET BEATON. Snow-white, with a small orange-scarlet throat blotch. For years one of our best. 3 for 45c; 6 for 75c; 12 for \$1.35; 25 for \$2.45, prepaid.

PURPLE

602-11 KING LEAR. A huge, ruffled, purple Glad with silver edging. Fine for bold, beautiful effects with Snow Princess. 3 for 45c; 6 for 75c; 12 for \$1.35; 25 for \$2.45, prepaid.

602-15 PARNASSUS. A new glad. Pansy-purple in color with tall straight spikes. 3 for 45c; 6 for 75c; 12 for \$1.35; 25 for \$2.45, prepaid.

YELLOW

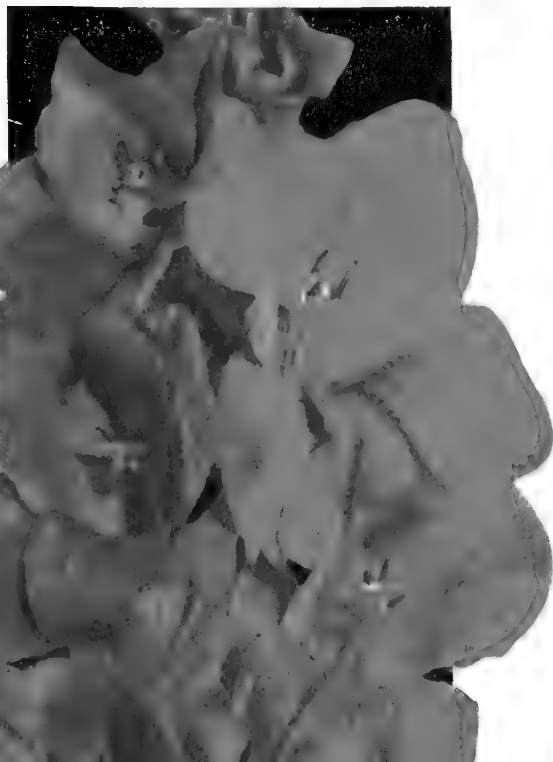

602-13 OREGON GOLD. This tall, stately Glad has light yellow florets that are very ruffled. Outstanding. 3 for 45c; 6 for 75c; 12 for \$1.35; 25 for \$2.45, prepaid.

602-18 SPOTLIGHT. A clean brilliant yellow with a scarlet trickle deep in the throat. Florets are large, round and full. One of our best yellows. New, very popular. 3 for 45c; 6 for 75c; 12 for \$1.35; 25 for \$2.45, prepaid.

ORANGE

602-16 RIO-RITA. As gay as the song, Rio-Rita is one of our favorites. A ruffled orange on good sturdy spikes. 3 for 45c; 6 for 75c; 12 for \$1.35; 25 for \$2.45, prepaid.

SMOKY

602-02 BELTRAMI. A thrilling smoky of a rose-mulberry. Smokies are not grown enough. We believe Beltrami is one of the best. 3 for 45c; 6 for 75c; 12 for \$1.35; 25 for \$2.45, prepaid.

BRONZE

602-05 BUCKEYE BRONZE. This striking blend of autumn colors is much in demand in florist shops and roadside stands. A good grower and consistently a show winner. 3 for 45c; 6 for 75c; 12 for \$1.35; 25 for \$2.45, prepaid.

VIOLET or BLUE

602-01 ABU HASSAN. In a mixed bouquet the contrast of this deep, dark blue adds richness to all the others. Florists welcome it. 3 for 45c; 6 for 75c; 12 for \$1.35; 25 for \$2.45, prepaid.

602-04 BLUE BEAUTY. An old favorite light blue. Large florets; takes many prizes. 3 for 45c; 6 for 75c; 12 for \$1.35; 25 for \$2.45, prepaid.

GLAD GARDEN COLLECTION

602-27

Modern Shade

The Maples

302-14 MAPLE, Schwedler

A beautiful tree; ideal for color accents in spring and fall. Its crimson leaves in spring contrast with the usual vivid greens. Gradually the colors soften to **bronze-green** in summer; then to a deeper waxy green. Has the same round, symmetrical shape as its parent, the Norway Maple. A long-lived hardy tree that will enrich your home landscape.

	Each	2 for
6-7 ft. whips	\$3.85	\$7.45
5-6 ft. whips	3.30	6.35

302-12 MAPLE, Hard

One of the finest and most colorful of all the Maples—a beautiful shade or boulevard tree. Brilliant **yellow-orange or scarlet** foliage in fall. A tall, stately, sturdy tree, compact, graceful. Grows well North or South.

	Each	2 for
6-8 ft.	\$5.25	\$10.25
5-6 ft.	4.25	8.25

302-13 MAPLE, Norway

Very popular because of its pleasing familiar dome-shaped head densely covered with beautiful **dark green** foliage. Lovely autumn foliage of **rich yellow and orange** hangs on the tree 2 weeks longer than on any other Maple. Well adapted to city conditions. Fine for street or lawn planting.

	Each	2 for
7-8 ft. whips	\$2.35	\$4.45

302-15 MAPLE, Soft or Silver

Not as pretty in the fall as the other Maples, but has attractive summer foliage and is one of the **fastest growing shade trees**.

	Each	2 for
8-10 ft.	\$3.65	\$6.95
6-8 ft.	2.75	5.25
5-6 ft.	2.15	3.95

Bolleana Poplar

302-11 MAPLE, Crimson King (Pictured Above)

A brilliant new tree is the **Crimson King** Maple. It is a crimson form of the Schwedler Maple, originated in Europe. It is **brilliant crimson all through the summer months**. Under observation since its introduction into America over 10 years ago, it has held its vivid coloring all through the season. **Perfectly hardy**. For color accent all summer long, **Crimson King** cannot be beaten. Brighten your yard by planting one or two this spring. Pat. No. 735. 5-6 ft. whips, \$4.95 each; 2 for \$9.65.

The Birches

These delightful trees are not valued as much for shade as they are for their gracefulness. Outstanding for accent points, their comparatively small size makes them usable in almost any yard.

302-03 BIRCH, White. A beautiful tree for your lawn. Has slender, graceful branches, deep green foliage, and **paper-white** bark. In the fall the leaves turn an attractive yellow. Summer or winter it contrasts effectively in clumps near or among evergreens.

	Each	2 for
6-8 ft.	\$3.55	\$6.85
5-6 ft.	2.65	4.95

302-02 BIRCH, Weeping Cut-Leaf. You'll find grace, charm and beauty combined in this popular tree. Has **silvery white** bark, graceful drooping branches, and small, finely cut leaves. Emphasizes the compact lines of evergreens. Grows best in moist locations. Very attractive when planted in groups of two or three.

	Each	2 for
6-8 ft.	\$6.25	\$12.25
5-6 ft.	5.25	10.25

The Poplars

The Poplars have been steadily growing in popularity. Excellent for **tall screens** and accent points. Can be used on corners of tall houses, and to line driveways for farm homes.

302-20 POPLAR, Lombardy. Tall, stately landscape tree for accent points, quick screens, backgrounds and driveways. Very picturesque and very useful. Has glossy leaves that shimmer in the sunlight. Branches grow close to trunk and upright to form a **tall, slim column**. Fast growing and hardy.

	Each	2 for
6-8 ft.	\$1.50	\$2.85
5-6 ft.	1.10	2.00

302-19 POPLAR, Bolleana. (Silver-Leaved.) Beautiful landscape tree that resembles the Lombardy Poplar in shape, but is **hardier and longer lived**. Has deeply lobed leaves with a white facing that gives a delightful silver flash in the breeze.

	Each	2 for
6-8 ft.	\$2.85	\$5.45
5-6 ft.	2.25	4.25

Trees for Modern Homes

302-10 The Sensational New MORAINE LOCUST (Plant Pat. No. 836)

= Fast Growing - Long Lived - Seedless =

The MORAINE LOCUST is the shade tree that couldn't be much better if it was specifically bred for the needs of today. For the many new homes that have no shade whatsoever, the MORAINE LOCUST will provide shade quicker than any tree we know of. Yet, the MORAINE is a good tree—long-lived, drought resistant, and will grow on any soil.

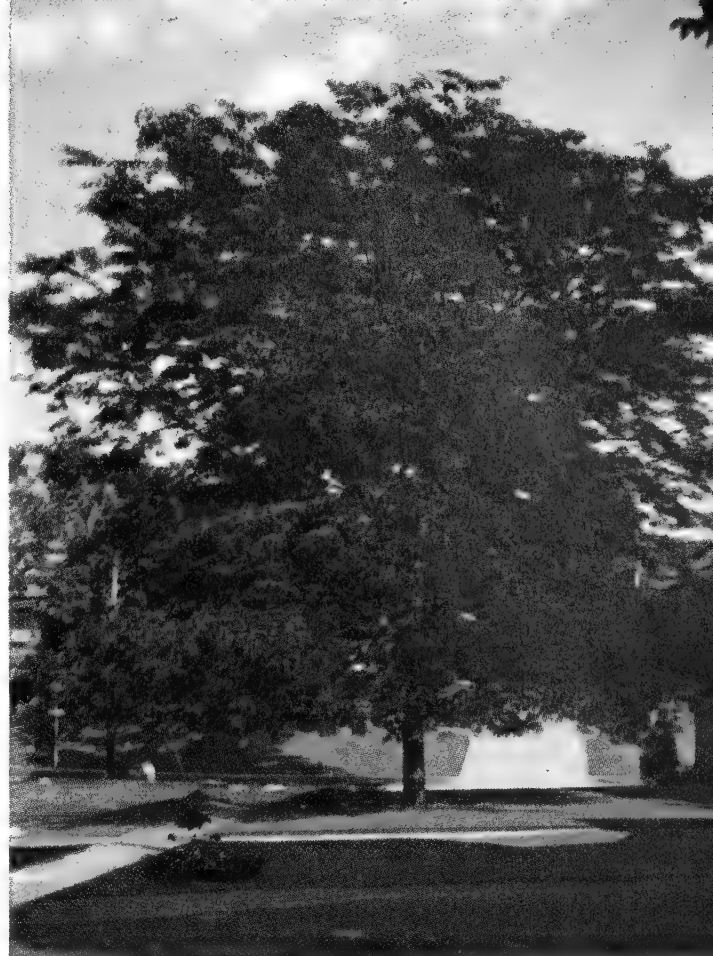

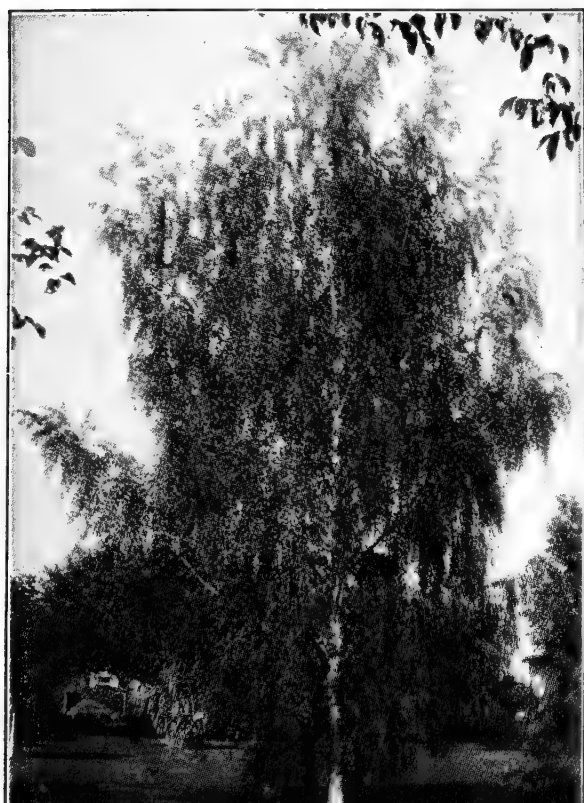

The MORAINE LOCUST is TODAY'S shade tree because of the following features:

1. **SEEDLESS.** Unlike other locusts, the Moraine is sterile, thus there are no unsightly seed pods to clean up in the fall. Non-fruited habit permits better foliage.
2. **GROWS ANYWHERE.** Seems to produce good growth on any kind of soil, but responds favorably to extra feeding.
3. **LONG-LIVED.** A common honey locust recently cut down in Ohio, proved to be 327 years old. There is every reason to believe that the MORAINE LOCUST, too, will be a long-lived tree.
4. **HARDY.** Common honey locust is native from New York to Minnesota and from Texas to Ontario. The Minnesota Horticultural Extension Department recommends it throughout the southern half of Minnesota. The MORAINE Locust should withstand the same extremes in temperature.
5. **BENEFICIAL EFFECT ON LAWNS.** Due to good shape of the tree and the fine foliage, enough light filters through to permit growth of excellent lawns, but adequate shade to prevent growth of crab grass.

We know of no other shade tree that possesses the many fine features of the MORAINE LOCUST. It more adequately fills the needs of today than any other tree. For shade in a hurry, plant MORAINE LOCUST. But order early as supply is limited this year.

Each 2 for
5-6 ft. whips\$5.00 \$9.75

Cut-Leaf Weeping Birch

Moraine Locust

302-01 ASH, Green

One of the best shade trees, very clean, symmetrical, drought resistant and long-lived. Green Ash grows under the most severe conditions. Excellent in the shelterbelt, too.

Each 2 for
6-8 ft.\$2.85 \$5.45

302-04 ELM, American (Grafted)

America's most popular shade tree. Large and spreading, it combines strength and grace. One of the best lawn or park trees—majestic, hardy, permanent. These are grafted Elm selected for their uniformity, good shape, and faster growing habit.

Each 2 for
8-10 ft.\$4.75 \$9.25
6- 8 ft. 3.75 7.25

302-06 ELM, Chinese

A hardy Siberian strain that grows fast even in poor soils. However, the Chinese Elm is not a good shade tree, and with the recent introduction of the Moraine Locust, the need for fast growing trees—yet good trees—can now be satisfied.

Each 2 for
6-8 ft.\$2.65 \$4.95
5-6 ft. 1.95 3.65

302-08 LINDEN, American (Basswood)

A beautiful specimen tree with a round, compact top; large, heart-shaped leaves that give dense shade.

Each 2 for
6-8 ft.\$4.75 \$9.25
5-6 ft. 3.25 6.25

302-17 MOUNTAIN ASH

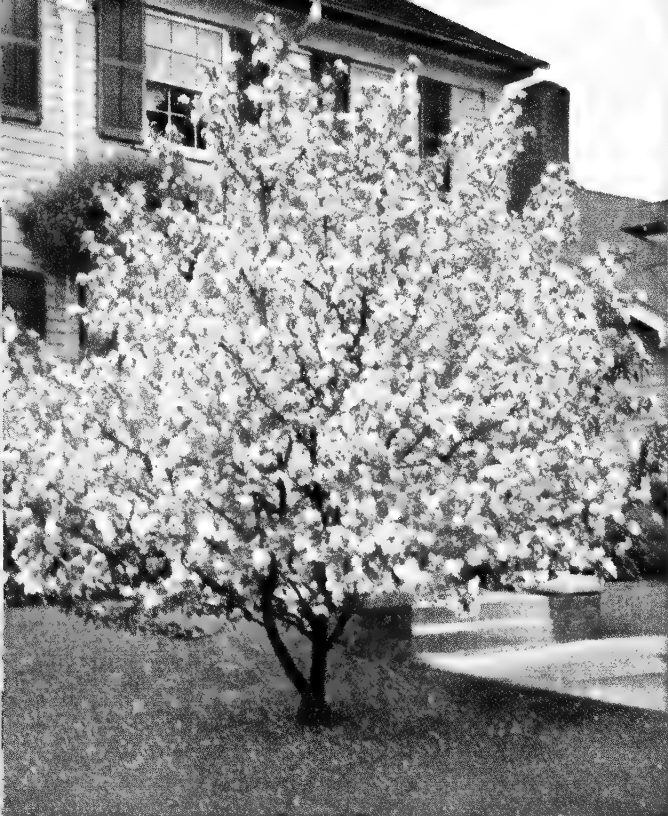

A beautiful semi-dwarf specimen tree with creamy white flowers followed by clusters of orange-red berries.

Each 2 for
6-8 ft.\$5.25 \$10.25
5-6 ft. 3.95 7.65

302-24 WILLOW, Niobe Weeping

A graceful weeping tree for lawn or beside a rock wall. Has golden yellow bark, narrow green leaves, silvery beneath and long drooping branches.

Each 2 for
8-10 ft.\$3.50 \$6.75
6- 8 ft. 2.65 4.95
5- 6 ft. 1.75 3.25

Klehm's Improved Bechtel's

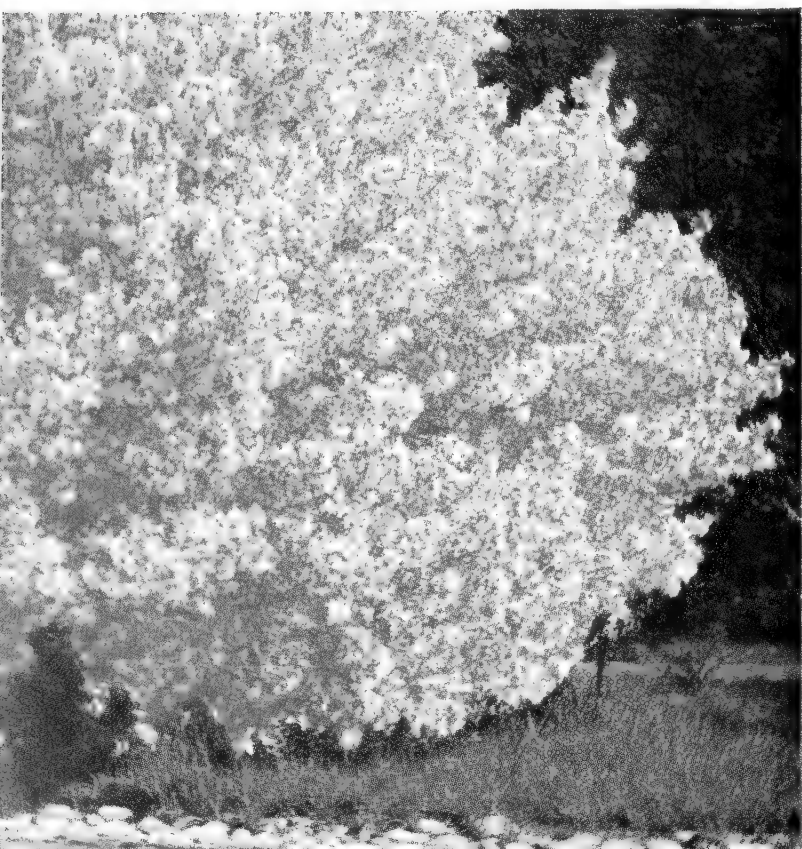

**303-02
BECHTEL'S, Klehm's Improved
Double Pink Blossoms!**

The branches are hidden by a spectacular display of delicate **double pink flowers** that look like **miniature Roses**. Ideal for the smaller yard. An improved hardy form of the old favorite Bechtel's Flowering Crab. 5-6 ft., each \$3.75; 2 for \$7.15. 4-5 ft., \$3.15 each; 2 for \$5.95, prepaid.

303-03 HOPA

Deep red buds are followed by a mass of fragrant rose-colored blossoms. The foliage is first a reddish purple, then a bright rich green. Truly a striking tree. 5-6 ft., \$2.85 each; 2 for \$5.35. 4-5 ft., \$2.35; 2 for \$4.35, all prepaid.

Hopa

Flowering Crab Apples

303-01 ALMEY

The new **sensation** in the flowering crab field. Newly introduced, **Almey** is the most talked of flowering Crab tree in America today. For illustration and full description, see **outside back cover**. 5-6 ft., \$3.75 each; 2 for \$7.15. 4-5 ft., \$3.15 each; 2 for \$5.95. 3-4 ft., each \$2.45; 2 for \$4.55, prepaid.

**The Exciting New
PYRAMIDAL
Flowering Crab Apples**

A new type of Flowering Crab that has many exciting new uses. Similar in outline to a Lombardy Poplar, but much smaller and longer lived, the new **pyramidal Flowering Crabs** can be used as corner plantings for homes, for screen plantings to hide undesirable views, or as individual specimens in the small yard. They **bloom profusely** and are something new. Explore them this year. We know you will like them.

303-08 STRATHMORE

A narrow upright Crab. Flowers resemble Hopa but are somewhat darker and less fading. **Foliage remains reddish all summer** and turns strikingly red and scarlet in autumn. 4-5 ft., \$3.15 each; 2 for \$5.95. 3-4 ft., \$2.45 each; 2 for \$4.55, all prepaid.

303-09 SUND OG

The widest of the pyramidal Flowering Crab trees, but **distinctly columnar**. Flowers are pink or mauve-pink and are produced every year. 4-5 ft., \$3.15 each; 2 for \$5.95. 3-4 ft., \$2.45 each; 2 for \$4.55, all prepaid.

303-05 M. R. No. 454

The buds of M. R. 454 are a deep **blood-red**, opening late to rosy flowers that fade to pink. The tree is literally **smothered in bloom**. Would be excellent even if not pyramidal in shape. One of the best. 4-5 ft., \$3.15 each; 2 for \$5.95. 3-4 ft., \$2.45 each; 2 for \$4.55, all prepaid.

Five Famous CUSHION MUMS

Have bushels and bushels of gorgeous mums to glorify your garden this fall. These lovely cushion mums in five favorite colors will amaze you with their hundreds and hundreds of brilliant, long lasting blooms. Plants are small and can be planted in front of shrubs or evergreens around the house or, if given a place in your garden, will provide a brilliant autumn show at a time when most everything else is through. If plants are set 18 inches apart, the ground will be completely covered in a sea of bloom by autumn.

Big - Beautiful! Tuberous Rooted **BEGONIAS**

(Double-Flowered Camellia
Type)

Few flowers surpass for pure beauty these newly developed Tuberous Begonias. They have **huge double blooms**, closely resembling the lovely **Camellia** of Southern gardens; perfectly formed and carried on strong stems.

The best of all flowers for **shady location**. Perfect for planting on the north side of the house or under trees where few things do well.

Excellent for corsages and flower arrangements. Used for both summer bloom outdoors and potted plants during the winter.

Jackmani Clematis

CLEMATIS COLLECTION

501-09

1 Veillard. Lilac-rose.

1 Henryi. White.

1 Jackmani. Purple.

All 3 for \$4.35, Prepaid

Andrews VINES

FOR SUMMER CHARM CLEMATIS

All clematis grown in large pots and shipped with 18-inch staked tops in growing condition. Clematis shipments are sent separately, usually later than dormant nursery stock because of weather conditions.

\$1.75 each; 2 for \$3.00, all prepaid

501-03 JACKMANI. The most popular of all the large-flowering clematis in America, with large, velvety, **violet-purple** flowers. Grows rapidly through the summer and early autumn. Its beauty and perfection can be enhanced by cutting plants back to 3 feet to encourage strong new wood.

501-02 HENRYI. The **large white** flowers of Henryi often measure 8 inches. Although it is vigorous and climbs to 8 feet, Henryi is outstanding for its quality of bloom rather than its quantity.

501-06 VEILLARD. A tall growing clematis (10 to 12 ft.) of sturdy growth, Veillard produces **hundreds** of medium sized **lilac-rose** flowers. Color more intense in cool weather.

502-01 BITTERSWEET. Grow winter bouquets of **Bittersweet** on your own back fence or arbor. June blooms are followed later by attractive **orange-red berries**. Plant two or more for cross-pollination. Makes fine late fall and winter bouquets. This popular native vine has bright, glossy foliage, too. Makes a fine decoration for the summer-house if given a little help in climbing. Grows in any soil; in sun or partial shade. Very hardy. **2-yr. select vines: 85c each; 2 for \$1.55, prepaid.**

502-06 ENGELMANN IVY. You'll be surprised how rapidly this grows and how well it clings. Covers stone, brick or stucco walls without support. A handsome 5-leaved ivy with extra thick, green foliage which turns a **brilliant, rich red in autumn**. Thrives well in sunshine or shade. **2-yr., select vines: 80c each; 2 for \$1.45, all prepaid.**

GOLDFLAME HONEYSUCKLE

502-03

A delightful new vine with immense clusters of large, fragrant **flame-coral trumpets** lined with **creamy gold**. Blooms abundantly from May until frost, reaching its full glory in early summer. The dark, glossy, blue-green leaves make a perfect background for the brilliant flowers. **Goldflame** can be clipped to form a neat hedge, pruned to make a striking specimen shrub, or allowed to grow naturally to climb a trellis, or spread as a ground cover. **Very hardy and easy to grow. 2-yr. select vines: \$1.35 each; 2 for \$2.45, all prepaid.**

Goldflame Honeysuckle

Delicious Tree-Ripened PEARS can be yours

Many folks still do not believe that pears can be grown in the North. However, we do have **hardy pears** that you can grow easily. Pears will do well in sod in your own yard. They do not take much room and are quite ornamental. Be sure to plant two kinds for cross pollinating and you will have loads of fruit.

103-06 PATTEN

A juicy, **sweet and flavorful pear** recommended for southern Minnesota and other regions with a similar or milder climate.

Prof. H. L. Lantz, of Iowa State College says: "This Patten pear as grown at Charles City, Iowa, has never blighted and has been productive and vigorous. The fruit is of good size, resembles Bartlett in form, very tender, juicy and good quality; season is September."

103-01 BANTAM ★★★

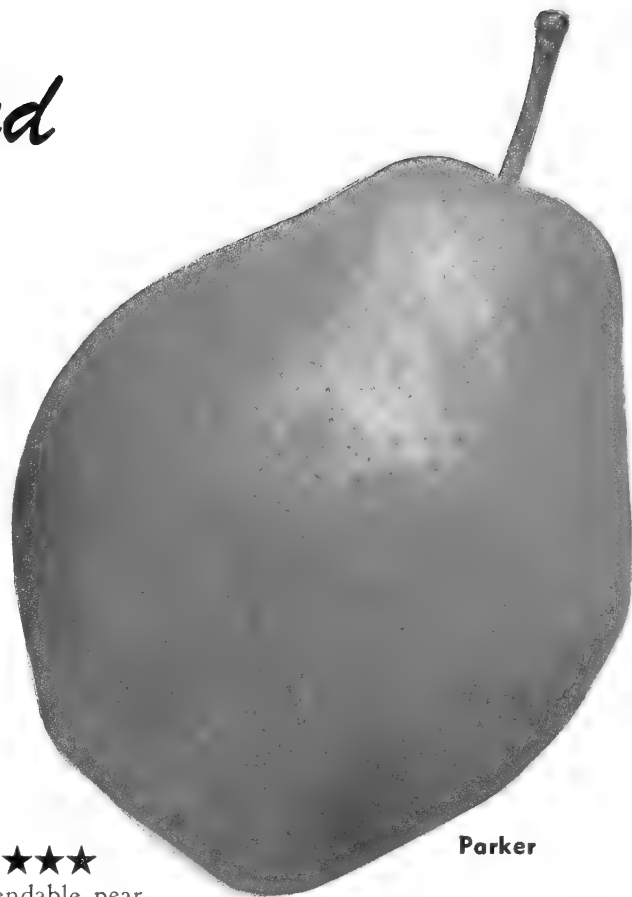

A Minnesota developed variety with fruit the size of Seckel, **excellent for eating or canning**. Fruit makes up in quality what it lacks in size. Free of blight, the tree is a heavy annual cropper. Hardy as a Duchess apple, it can be raised wherever Duchess can be grown.

PEAR PRICES—All Prepaid

5-6 ft.	\$2.15	\$4.15
4-5 ft.	1.85	3.55
3-4 ft.	1.45	2.75

103-05 PARKER ★★★

Parker is the most dependable pear for Southern Minnesota and similar regions. We suggest trying it in favorable locations farther north too. **Prof. Alderman** describes Parker as follows: "The fruit is medium to large, with smooth medium thick skin; color is clear medium yellow, usually with blush; flesh is tender, medium fine grained, juicy, sweet and of **very good quality**." Fruit ripens in early September.

Parker

GRAPES

A dollar or two invested in Andrews grape vines will give you many dollars worth of **vine-ripened fruit**—plus years of satisfaction. And **grapes are easy to grow**. Plant a selection this spring.

103-02 **BETA**. A tame grape with the extra flavor and hardiness of wild grapes. **Excellent for juice and jelly**. Needs no winter protection.

103-05 **CACO**. Most popular **red** grape. Extra large, rich, and sweet; delicious flavor. Winter cover needed in Minnesota.

103-07 **CONCORD**. Bears large bunches of sweet, juicy, blue-black grapes every year. See **Fredonia**.

103-09 **FREDONIA**. Fruit is equal to or better than Concord, and ripens 3 weeks earlier, thus better for northern gardens. Both need winter cover in Minnesota.

103-14 **PORTLAND**. A large **white** grape of good quality. Requires winter protection in Minnesota.

103-16 **VAN BUREN**. Newest and best of the **blue** grapes—and earliest to ripen. **Superb quality**. Needs winter cover in Minnesota.

SUMMER VARIETIES

101-20 ORIOLE ★ ★ ★

A new, large extra early apple of very high quality that ripens in August—just when you would give most anything for a fresh apple pie. However, Oriole isn't just a pie apple. It is **top quality** for eating with a crispness and juiciness not usually found in early apples.

101-14 MANTET ★ ★ ★

Another new early summer apple. Mantet has exceptional quality, being equalled only by Oriole during that season. While not as large as Oriole, Mantet is a solid brilliant red. Very hardy—very desirable.

101-02 BEACON ★ ★ ★

Beacon has established itself by out-selling and out-performing its seasonal rival—Duchess. Ripens in early September in Minnesota. Its solid, dark red color gives it eye appeal unequalled at that time of year. Good quality. For home or market, Beacon is King in its season.

FALL VARIETIES

101-12 LAKELAND ★ ★ ★

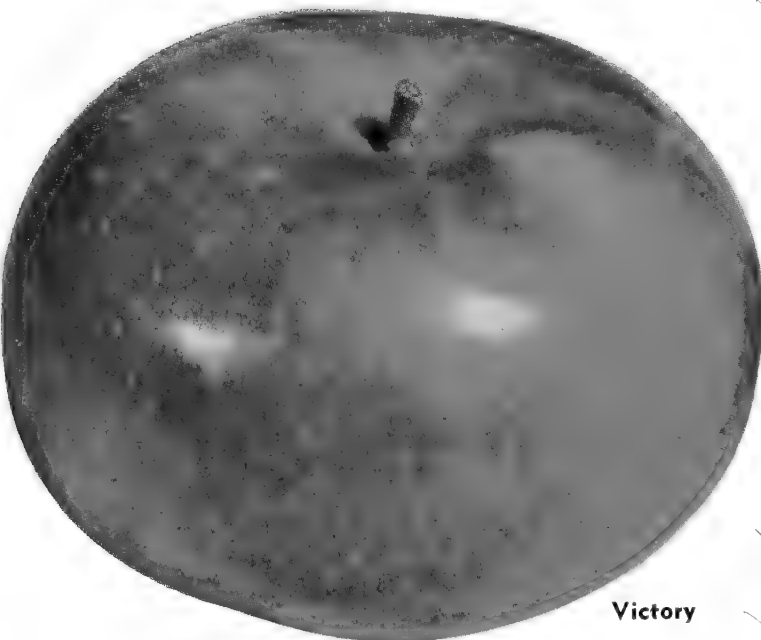

Lakeland is a new apple that just can't miss. Just a bit later than Wealthy, it is better on every count. Color is an attractive all-over bright red. The apple does not drop easily. It is an annual bearer, which means you get apples every year instead of more than you want one year and none the next. A sure winner.

101-26 VICTORY ★ ★ ★

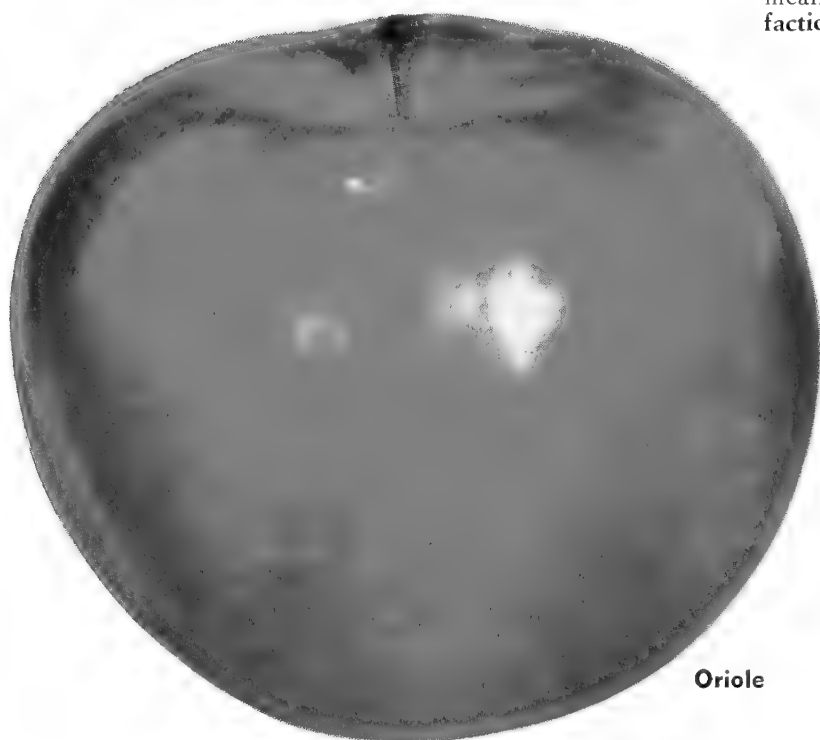

An improved McIntosh. Excellent for eating, sauce, and salads.

101-15 MINJON ★ ★ ★

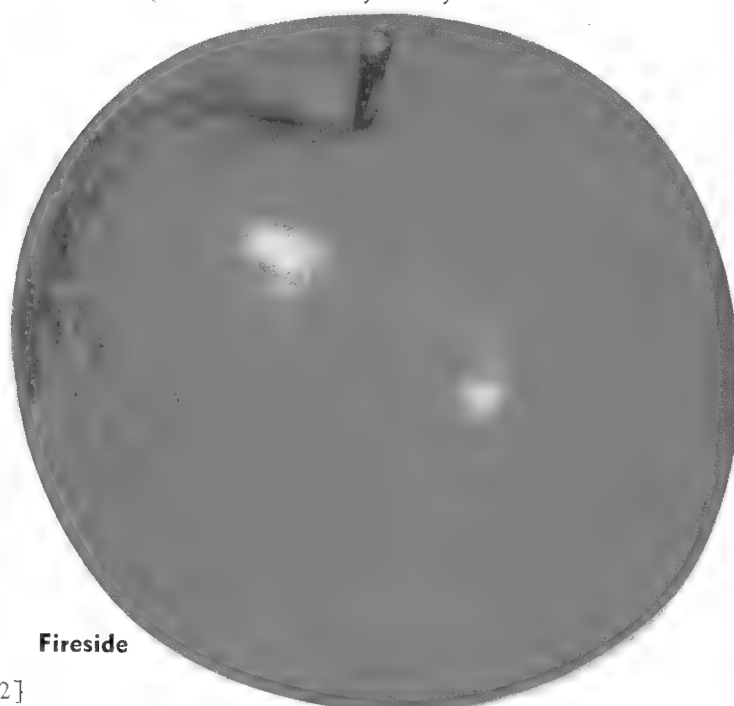

A large, dark, brilliant red apple of the Jonathan type. Good quality for both eating and cooking. Ripens earlier than Jonathan which means better prices for the commercial grower, and greater satisfaction for the home grower. Extremely hardy.

Victory

Oriole

Fireside

Apples for Every Need Northern Rooted" Trees

of Minnesota Fruit Breeding Farm

WINTER VARIETIES

101-24 REDWELL ★★★

Ideal for home or commercial orchards. Bears every year. Apples are of good quality, a solid red color, and of large uniform size. Oldest trees under test produced 17 consecutive crops. Extremely hardy.

101-22 PRAIRIE SPY ★★★

Prairie Spy is for discriminative people—those who are not satisfied with common apples. Its unusual flavor sets it apart from all others. Excellent for eating. Not being sweet like Fireside it is also prized for cooking. This dual-purpose feature will make it a favorite of yours—and its individual almost nutlike flavor will make your friends frequent visitors at picking time. Will keep all winter.

101-08 FIRESIDE ★★★

For those who want a sweet apple for eating, but want more crispness and character than Delicious, we recommend Fireside. Exceptional quality for eating. Very hardy and long keeping.

3-4 ft.		1.15	1.05	.95

SUMMER VARIETIES

101-01 ANOKA

Good when you want apples quickly—often bears the second year. However, quality is poor. We would recommend Oriole, Mantet or Beacon.

101-25 RED VAN BUREN

Until recently, thought to be a red sport of Duchess. All the good qualities of Duchess, but larger and better color. Excellent for pie. Solid red, very early, and hardy.

FALL VARIETIES

101-04 CORTLAND

The fruit of Cortland is large, well colored and has a crisp white flesh. Above average for both eating and cooking. Keeps well into winter in common storage. Many growers like it better than its parent, McIntosh.

101-10 HIBERNAL

An extremely hardy tree with perfect branching for topworking. Fruit is poor quality. Not recommended except for topworking. Write for prices on larger quantities.

101-10 JONATHAN

A very popular, all-around apple. Dark red in color; of high quality, and a good keeper. Recommended only for Southeastern Minnesota and similar sections.

Suggestions for Planting Fruit Trees

For best results, mix some "planting soil" consisting of 1/3 GRO-MULCH and 2/3 garden soil. Place this mixture around roots when planting and fill rest of hole with soil removed in digging the hole. Water heavily. Then, beginning one week after planting, water tree with NURISH mixture as indicated in direction, once a week for 6 or 8 weeks, then less often until September when all watering should be stopped.

are *Longer Lived and More Productive*

FALL VARIETIES—Continued

101-17 MINNESOTA No. 790 ★★★

Large, firm, dark red apple with the proper sugar content to enable it to hold its shape while being baked. Absolutely **tops for baking**—also good for **pies and sauce**. A good **annual bearer** that keeps better than many fall varieties.

101-27 WEALTHY

An old standby that is still a very popular apple. Bright red over most of its surface, it has good size with a juicy, sprightly flavor. Ripens in late September but can be used earlier.

WINTER VARIETIES

101-09 HARALSON ★★★

Haralson is a large, red winter apple and while not as good quality for eating as Prairie Spy and Fireside, there is not an apple in the land that is better for America's most popular dessert—Apple Pie. It has **perfect cooking quality** and is a **heavy producer**. The trees are strongly branched and carry heavy loads. **Prof. Alderman says of Haralson:** "Its size, shape and color are just right for an ideal commercial apple." Fruit keeps through the winter.

101-19 NORTHWESTERN GREENING

Very large green apples that turn to an attractive pale yellow as they mature. Good for cooking—especially pies. Long winter keeper.

CRAB APPLES

101-03 CHESTNUT ★★★

The excellent eating quality together with its large size almost classes Chestnut as a small apple. Especially good in school lunches. Beautiful bronze-red, **crisp and juicy**. Ripens early September, will keep into November.

101-07 DOLGO

Strikingly beautiful, the fruit is **bright fiery red** and borne in great profusion. It **jells perfectly**—is also good for pickles and sauce. Very hardy.

101-28 WHITNEY

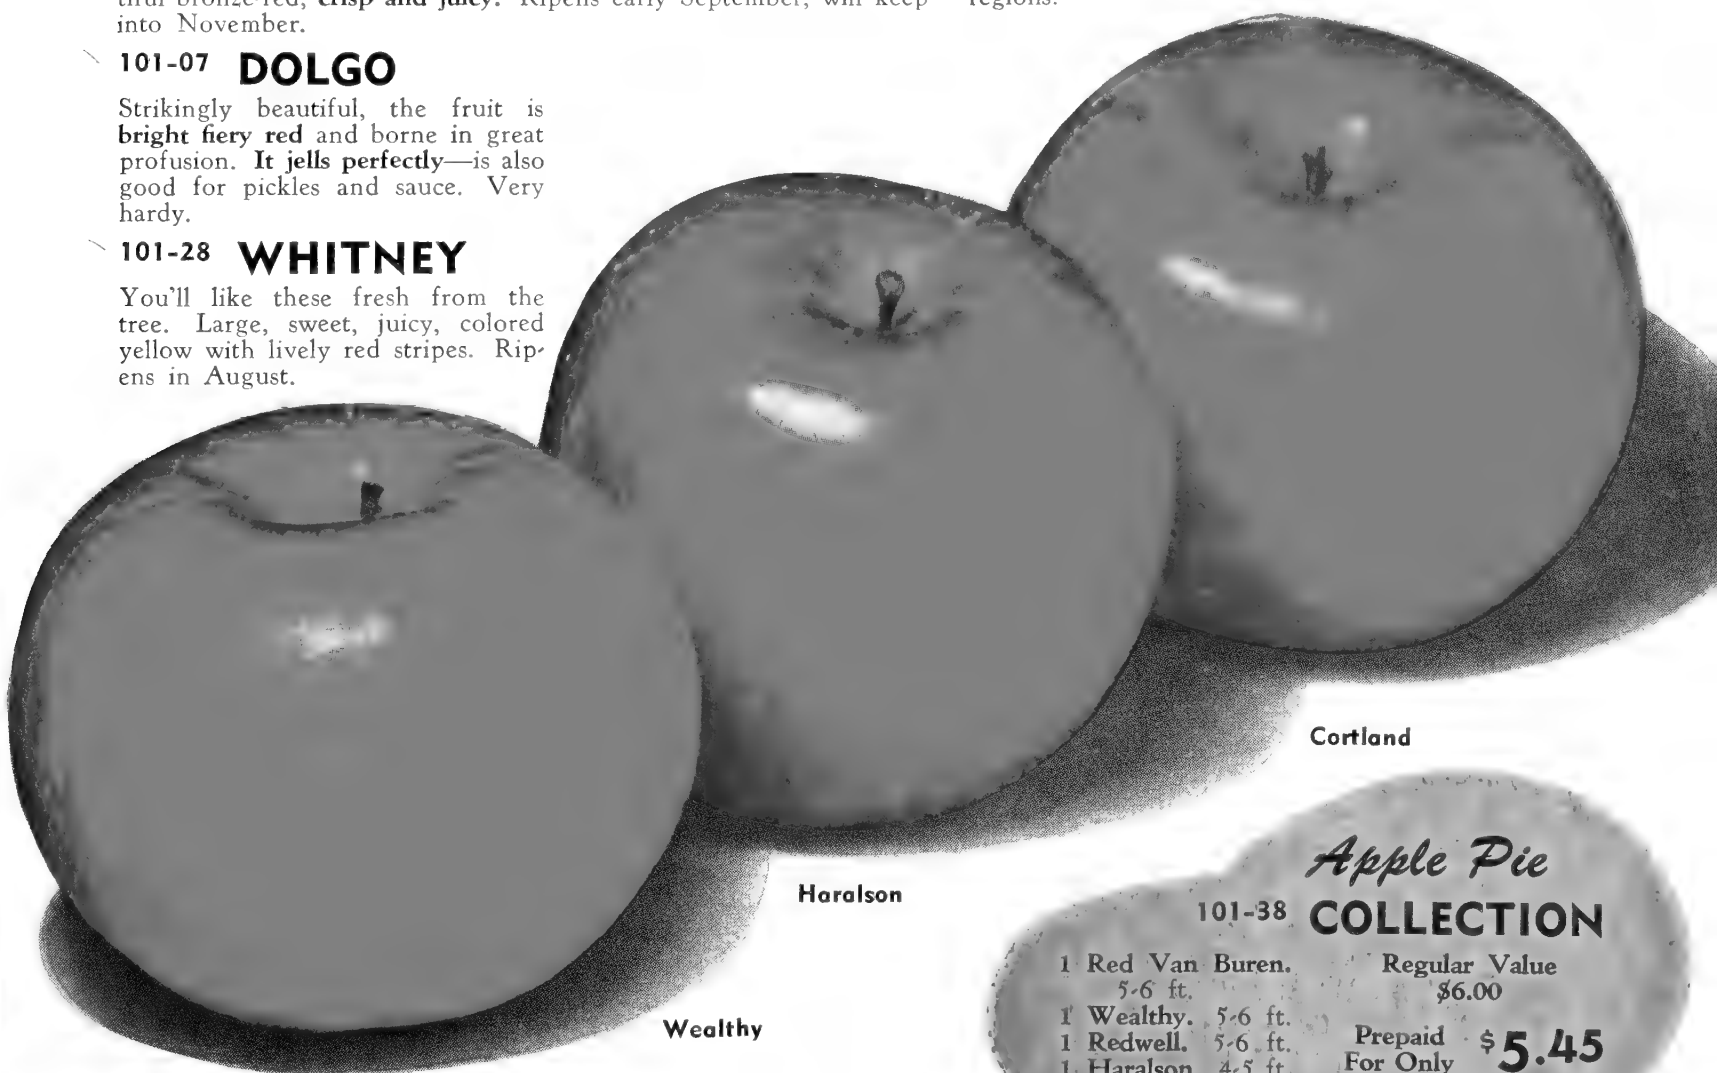

You'll like these fresh from the tree. Large, sweet, juicy, colored yellow with lively red stripes. Ripens in August.

Double
Red
Delicious

101-05 DOUBLE RED DELICIOUS

America's best known and most popular apple. Beautiful red, sweet winter eating Apple. High quality, although without the richness and character of Fireside. Recommended for Southeastern Minnesota and warmer regions.

Mount Royal

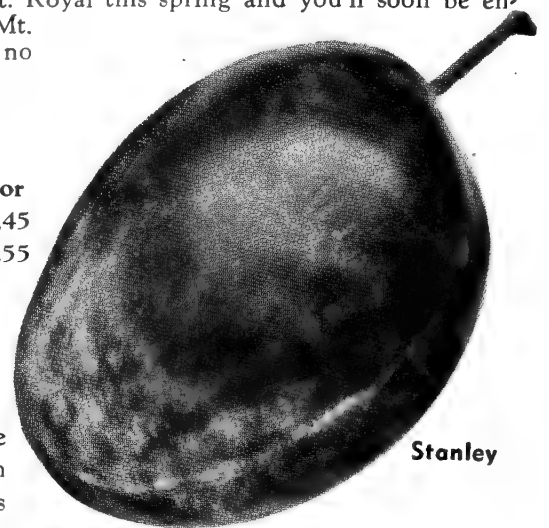

EUROPEAN PLUMS and PRUNES

104-03 MT. ROYAL *The Hardest European Plum*

Remember those delicious, juicy European Blue Plums you always liked but never could grow? Now you can grow them in your own back yard on medium sized trees. They will be even tastier, too—tree ripened in your own yard. The fruit is medium in size, attractive deep blue or purple with a medium bloom; flesh is firm, juicy and **FREESTONE**. The quality is excellent for all purposes. Be sure to plant some Mt. Royal this spring and you'll soon be enjoying your own European plums. Mt. Royal appears to be self-fertile so no pollinizer is needed.

2-3 ft.	1.35	1.30	1.25

Redcoat

104-05 REDCOAT ★★★

You'll want seconds on dessert when you try a dish of these luscious plums next winter. **Perfectly freestone**, Redcoat is one of our best plums for canning. Has medium sized, bright crimson fruit of excellent quality. Trees are vigorous, hardy and highly productive. Bears young and heavily.

104-04 PIPESTONE ★★★

For a taste treat you'll never forget, just try a **huge juicy Pipestone Plum**. Very large, early, highly productive, and exceptionally flavorful. This plum ripens early in August and bears heavily every year. Good for canning, but especially valued for eating fresh—you'll say: "It's the best yet." Don't lose another year—plant Pipestone this spring.

POLLINIZERS

Be sure to include some **plum pollinizers** with every group of plums, except Mt. Royal and the Prunes, to make sure you will get fruit. If you have some plums that are not bearing well, add Kaga or a Toka to your planting.

104-02 KAGA

Fine apricot-type flavor—you'll love **Kaga** for jam, though it's not much for eating. Very good pollinizer.

PLUM COLLECTION 104-15

- 1 Redcoat 4-5 ft.
- 1 Pipestone 4-5 ft.
- 1 Toka 4-5 ft.
- 1 Stanley Prune 4-5 ft.

Regular Value \$7.80

All Four Trees
for Only \$7.15
Prepaid

104-10 TOKA

Apricot-plum flavor. Brilliant red in color and with a very nice aroma. **Excellent for canning** as there is no bitterness from the skin or pit. The tree is very shapely and quite ornamental as well as fruitful. Very good pollinizer.

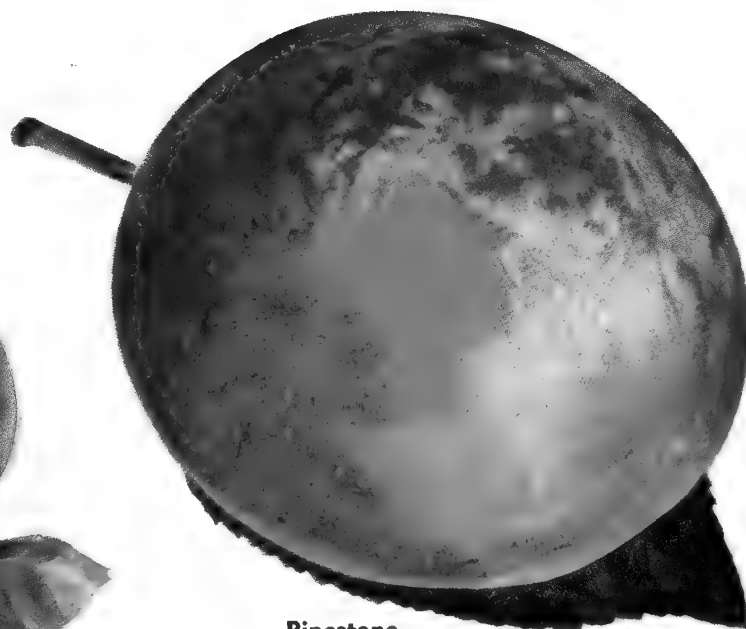

908-00 A New Home CHERRY and OLIVE PITTER

Here is just what you have wanted when you had a cherry pie to make or were making cherry jam. It's the best cherry pitter we have ever seen. Simple to operate—clean—efficient.

It pits perfectly all kinds and sizes of cherries, cherry-plums and ripe olives—although it won't pit the large Jumbo plums. Removes the pit with a minimum bruising of fruit. It saves your hands and eliminates kitchen mess.

Perfect for use with cherry-plums, the Nanking and Korean cherries, Bing cherries, pie cherries and the Dietz prune. Once you have used it you would never be without it. **\$1.25 each; 2 for \$2.25, prepaid.**

Kaga

Pipestone

CHERRY-PLUM HYBRIDS

Two or three cherries or cherry-plum trees in your lawn or home orchard will give you loads of delicious cherries to eat fresh, and for canning, jams, juice and jellies. Here's a jam recipe to tempt small boys. Cover plums or cherries with water, add 1½ teaspoons soda, boil till skins break, drain through colander, remove pits. Add sugar pound for pound. To a moderate-sized kettleful, add 1 tablespoonful vinegar, boil till thick. Put in jars and seal.

Sapalta

102-17

SAPALTA

A New, Sweet
Cherry-Plum Hybrid

Compass

From our neighbors to the North has come another achievement in plant breeding. Sapalta is a new, **extremely hardy** Cherry-Plum Hybrid developed at the Dominion Experimental Station, Brooks, Alberta, Canada. It is a seedling of Sapa, but seems to be hardier and even a more dependable bearer. We are proud to be among the first to offer this variety.

Prof. W. R. Leslie, Superintendent of the Experimental Station at Morden, Manitoba, Canada, says of Sapalta: "Closely resembling Sapa in bush and fruit characters, but **seems sweeter** and less clingstone. It may be more dependable. The fruit is of **excellent quality**."

You will enjoy this new addition to your garden or orchard. Be sure to include a pollinizer cherry in your order.

102-16 SAPA

A popular fine-flavored cherry-plum that is **unexcelled for canning**, for eating fresh and in sauce and pies. Fruit finds a ready market. **Fruit is large** with a small pit, a thin purple-red skin and **wine-red flesh**.

Introduced a number of years ago by Prof. N. E. Hansen, Sapa forms fruit buds the first year and bears the second. It is a good annual bearer. Sapa is extremely hardy and easy to grow. Sets fruit regularly and heavily if you prune severely every year. Cut out the older growth and encourage new shoots. Include some pollinizers with order.

POLLINIZERS

Because Cherry-Plum Hybrids will not bear if grown alone, you will want to plant some pollinizers, too. You will find **Compass** and the **Hansen's Bush Cherry** to be excellent pollinizers. Be sure to include one or the other in every order.

102-02 COMPASS

Compass has proven to be an effective pollinizer for Sapa and Sapalta. Plant one in every group, or in larger plantings, one to every 8 or 10 trees. The tree is **extremely hardy** and thrives in nearly any location. Fruit is valued for canning, jam and jelly. Will bear the second year. Better fruit than Hansen's Bush Cherry.

102-04 HANSEN'S BUSH CHERRY

Hansen's Bush Cherries are also recommended as pollinizers for Sapa and Sapalta. They are easy to grow, and while the quality does not compare with the Korean Bush Cherry, it does make good preserves. They bear early, heavily and annually.

KOREAN CHERRIES

Here's the ideal combination you've been looking for—**an attractive ornamental bush** that bears loads of **delicious cherries** for pie, sauce and jelly!

Korean Bush Cherries grow only **3 to 4 feet tall**. They make excellent foundation plantings with their delicate green leaves (which turn bronze in the fall), their mass of white bloom early in spring and brilliant red fruit in August.

Beautiful and Useful, Too

You can plant Korean Cherries near the house, in the shrub border, the screen planting, or in the garden. Resembling flowering almonds, they add a touch of beauty to any landscape planting. And they provide **fresh fruit** grown inside the foliage where birds can't reach.

You would hardly suspect that these little bushes bear loads of delicious full-sized cherries the second year. The fruit is sweeter than regular pie cherries. The pies they make will please the heart (and stomach) of any man or boy!

The wild form of this cherry is a tough, hardy native of Korea. Horticulturists at the Minnesota State Fruit Breeding farm improved it by years of selection and testing. Our stocks are propagated from the state's best selections. Be sure to plant at least two different varieties to insure cross pollination.

910-00 GRO-MULCH

A New All-Organic Plant Food

A 3-PURPOSE PRODUCT **Mulches, Conditions Soil and Aids** **Plant Growth—in One Operation**

Gro-Mulch is an **all-organic** plant food processed from plant and animal substance. It is **perfectly safe** as it will not burn the plants even if used in the pure state.

For the best results you have ever had, use Gro-Mulch when planting trees, shrubs, roses, perennials, vegetables, and house plants, and then follow up with Nurish described at the right. Use as follows: **Tree and Shrubs**, mix 1/3 Gro-Mulch and 2/3 garden soil and place around the roots. **Roses**, work 3 inches of Gro-Mulch into the top 12 inches of soil, or substitute Gro-Mulch for manure in the preparation of rose bed. **Vegetable Garden**, prepare by working 2 inches of Gro-Mulch into the top 8 inches of soil, and place handful around each plant when setting out. **Lawns**, spread the loose granules over the grass at rate of at least 25 pounds per 100 square feet and sprinkle well. **Potted Plants**, mix 1 part Gro-Mulch with 3 parts good potting soil.

NURISH

The Scientifically Balanced ALL-PURPOSE PLANT FOOD

We are pleased to be able to offer you in small, easy to use quantities, the same outstanding plant food that we use in our nursery and greenhouses.

Handy size: Nurish is now packed in convenient 1½-pound containers.

Easy to use: Simply take one of the 32 - ¾-ounce foil envelopes out of the container and dissolve contents in 1½ to 2 gallons of water and it is ready to use.

Easy to apply: Nurish may be applied either as a liquid fertilizer to the roots or sprayed on the leaves.

Quick results: Nurish will begin to show results in three or four days. Watch the luxuriant and **HEALTHY** growth as the plant begins to respond when properly and completely fed.

Inexpensive: Nurish is inexpensive. The 1½-pound package makes between 384 and 512 pounds of plant food.

Price: 1½-pound containers—**only \$2.35, postpaid.**

Read complete story of NURISH on reverse side of order blank. Complete directions for its use accompany each package.

204-04 *Blueberry Offer*

Because the plants are not self-fertile, we give you this special combination offer of three leading varieties:

- | | |
|---------------------------------------|--|
| 1 Stanley, 12"-18", 3-yr. plant | } 1 each
of all
3 for
\$5.35 |
| 1 Rubel, 12"-18", 3-yr. plant | |
| 1 Jersey, 12"-18", 3-yr. plant | |

Prepaid

Complete directions with each order.

Free With each order of 3 plants, you will receive 1 pound of aluminum sulphate to make your soil acid. Work this into the top 6 inches of soil in accordance with the directions which will be included.

Nanking Cherry, below

Now you can have home-grown blueberries—big, luscious, marble-like berries so good **picked fresh** (and eaten with cream and sugar), delicious in pies or preserves, or **frozen fresh** for next winter!

The new perfected hybrids are big, shrublike plants which grow 4 feet or more high and just as broad. Planted in moist, acid soil, they will bear heavy clusters of giant fruit in 2 years. To make your soil acid, a 1-pound bag of aluminum sulphate is included with each order. Your Farm Bureau will test your soil for acidity.

A mixture of sand and peat is most desirable. If your site is not too moist, you'll have better luck mulching with sawdust or peat than with cultivation. Peat will furnish needed nitrogen. A little extra care will pay you well. The plant itself is beautiful, with creamy white, fragrant blooms in spring, followed by attractive, delicious fruit. In fall the foliage turns a brilliant red. **Plants require a limited amount of winter protection** and some pruning. They have no harmful enemies; require no spraying.

Complete Directions for Planting with Every Order

NANKING CHERRIES

★★★

Fruitful—Ornamental

Beautiful bloom and foliage are combined with loads of attractive and delicious fruit in the "**dual purpose**" Nanking Cherry. Only 5 to 6 ft. tall, the shapely bushes fit naturally into any landscape planting—or they may be grown in your orchard or garden. Absolutely hardy—can be grown anywhere.

Improved Hardy Selections

The two varieties we grow are improved selections made by the Minnesota Fruit Breeding Farm. They are **grafted varieties** and should not be confused with seedlings. Both varieties are self-fertile and may be planted singly. Enrich your landscape by planting this practical "dual-purpose"—fruitful and ornamental—Cherry.

Cumberland

CUMBERLAND

Blackcap

202-02

The most widely planted black raspberry, **Cumberland** has stood the test of time because of its **fine flavor**, its extreme glossy blackness and the ease with which it is grown. It is a heavy cropper, is very dependable, and among the **hardest** black raspberries. For a good supply of delicious black raspberry jam set out some Cumberland this spring.

SODUS Purplecap

202-06

If you are not yet growing **Sodus**, don't let another year slip by without planting some. A cross between a red and a black raspberry, **Sodus** is a purple raspberry with outstanding qualities. **Deliciously flavored with a zest unknown in other berries**, many people believe the flavor of **Sodus** to be better than that of any of the red or black raspberries. To see for yourself just crush a cup of fully ripe **Sodus**, sugar lightly, and pour over a dish of vanilla ice cream. Now there is a real flavor. When you have done this we believe you will agree that **Sodus is tops in taste appeal**. The husky plants are very heavy producers and are easy to grow. Don't miss another year—plant **Sodus** this spring.

For improved fruit see page 3 for
BERRY-SET.

ALFRED Blackberry

203-01

These large, jet-black berries are sweet and juicy and up to 1½ inches long. Called the coreless blackberry, **Alfred** ripens earlier than **Eldorado** and is more productive. For best results we recommend winter protection.

There is evidence that the lack of fruitfulness of the blackberry is caused by an insect which can be easily controlled with a spray of 50% wettable DDT at the manufacturer's standard recommendation, applied just before bloom.

BOYSENBERRY

209-02 THORNLESS

A very large and productive berry—up to 2 inches long—that is said to be a cross between the loganberry, dewberry and blackberry. Eat them fresh for weeks, use them for pies, sauces, jams, jellies and fruit juices. Almost seedless. Should do well, protected during the winter in northern regions.

202-09 CUMBERLAND COLLECTION

This collection will give you a variety of berries that you can grow regardless of your garden's size.

201-04

LATHAM ★★★ *The Leading Midseason Variety*

Latham is the leading commercial and home variety. It is vigorous, easy to grow, a heavy producer, and hardy enough to stand sub-zero winters.

The fruit is very large, dark red and firm; picks easily, keeps and ships well. Delicious eaten fresh, in sauce, jam, pies or shortcake.

For the price of a crate of berries you can have enough plants to give you all the raspberries you want for fresh fruit, canning and freezing.

You can cut your grocery bills—and get a lot of satisfaction, too—by picking and enjoying your own home-grown fruit picked fresh for every meal. Your own berries have a better flavor, and there's no waste nor shrinkage.

Commercial growers report big yields and sure profits with Latham. Returns run as high as \$400.00 to \$800.00 per acre in a single year. For such results, plant genuine Latham (Redpath Strain) from Andrews healthy "certified mosaic-free" stock.

Prof. Alderman says of Latham:

"Its attractive coloring and firmness ordinarily commands a premium of 50c a case above the ordinary raspberry. Our test plots at Minnesota give conclusive proof that raspberry growing is very profitable. It is highly important to start with disease-free plants and follow up with suitable culture. Our test plots yielded 254 to 294 24-pint crates per acre the third season after planting."

201-10 TAYLOR

Excellent Quality — Very Productive

The Taylor red raspberry is an introduction of the New York Fruit Experimental Station. When introduced it was said that this variety held the most promise of any red raspberry on their grounds. The berries are **very large**, long conic in shape, bright red, and of **excellent quality**. They ripen shortly before Latham. Easily picked as they do not cling to the bush. The plants are unusually vigorous, productive and tall growing. Well liked by those who have had it.

201-12 HOME GARDEN RASPBERRY COLLECTION

For a family of four this collection makes an ideal planting to give both fresh fruit for the table, and some for jam and freezing or canning.

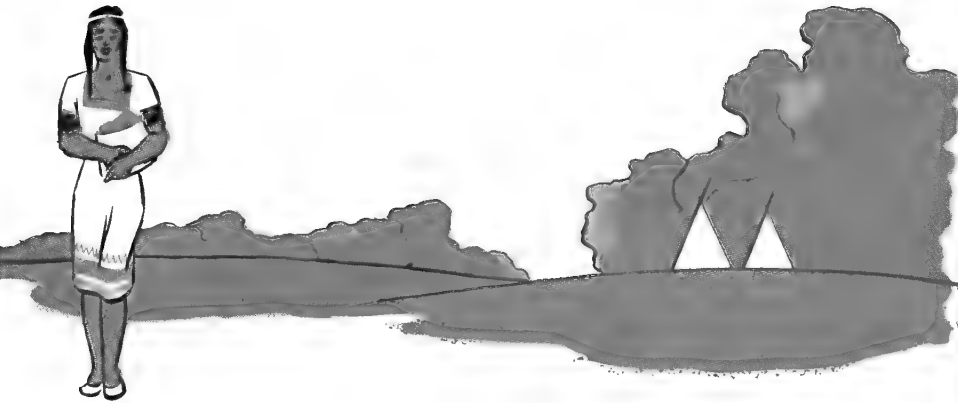

12 Latham	Regular Value \$11.75
12 Newburgh	
25 Indian Summer	Collection Price \$10.45
All 2-yr., Heavy Plants	Prepaid

201-06 NEWBURGH *A Promising Variety*

Where Newburgh performs well, it has become very popular. It is excellent for either home or market. The fruit is very large, firm and doesn't crumble. Color is an attractive bright red. Plants are vigorous and very productive. In the area around Duluth, Minnesota, Newburgh has become a serious rival of Latham.

Taylor

201-03

Indian Summer

The Best Everbearing Red Raspberry

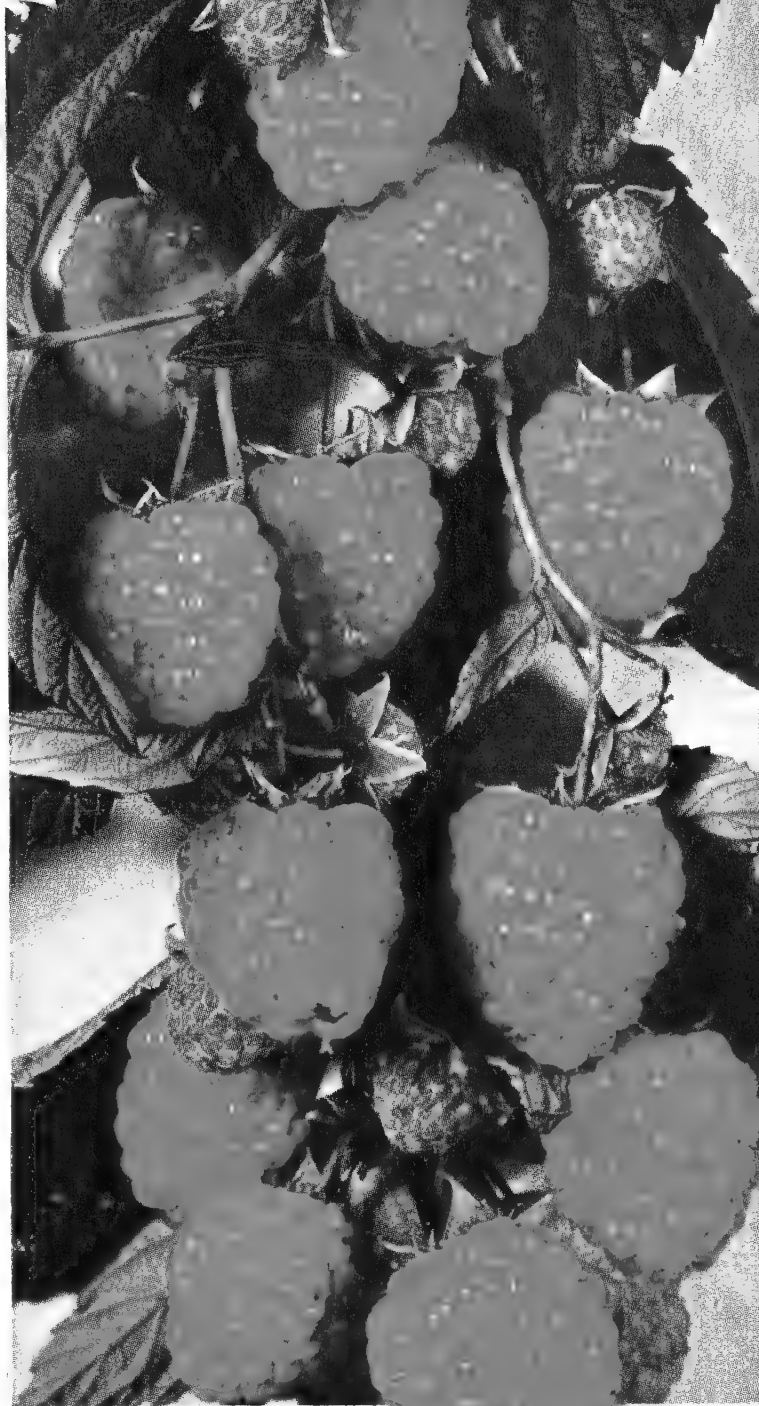

The huge berries of **Indian Summer** will make your garden the envy of the neighborhood. **Large and juicy** with a rich raspberry flavor, they are a special treat eaten fresh or frozen. The only raspberry that keeps its color when canned makes it popular with the housewife. For something unusual try them mixed with rhubarb. Once you have tasted Indian Summer you will always want it.

Indian Summer grows vigorously, yields heavily and requires little care. The fall crop will sometimes be too late for Minnesota but the summer crop is as **large or larger** than any other.

Although the berries are a little soft for long shipment, commercial growers find them excellent for local sales because of the extra heavy yield. Mr. A. L. Shuttleworth, prominent New York grower, says: "A yield of **5 tons** of fruit (660 24-pint crates) to an acre has been harvested from the summer crop here at my place." You can pick loads of delicious berries for your table with just 50 Indian Summer plants. For an ample supply for canning or freezing too, plant 100. You'll save buying expensive fruit, have better berries and plenty of them.

Dr. George Slate of New York says:

"When well grown the plants bear as heavy or heavier crops than most varieties. They are satisfactorily hardy in New York. The berries are large and of good quality. The fall crop is rather late in northern states. The plants do not become infected with mosaic even when grown near diseased plants".

For Hardiness and Early Season

201-01 **Plant CHIEF ★ ★ ★**

Recommended for early market, for severe conditions and farm gardens. **Chief** bears excellent quality fruit through a long season. Well known in Canada, it has proven itself as one of the most vigorous and **hardy varieties** for northern regions. **Chief** has many of the good qualities of its parent Latham. Berries are firm, bright red, not quite as large as Latham but have a better flavor than some of the other reds. **Chief** is more resistant to drought, cold and disease.

Andrews'

Nothing tastes better than sweet, delicious, home grown strawberries picked "flavor-fresh" from your own garden. And frozen berries are just as good. Highest fruit in Vitamin C. Why pay high prices for fruit so easy to grow? Plant liberally this spring.

NEW

red rich
EVERBEARING

205-07

The Sensational New Strawberry that All America is talking about

A sensational new Everbearing Strawberry! Many growers say that **Red Rich** has combined all the good qualities of everbearing strawberries into one kind—sweetness, size, color, vigor and high yield.

A thousand words can't tell the whole story of Red Rich. The **huge, deep red, honey-sweet berries** make Red Rich just about the best strawberry available today. The plants are big and husky with a tendency to keep the berries off the ground. And **Red Rich** is really an **Everbearer**. Planted in early spring, it will bear from June or early July all through the summer and into the fall. Because of the **tremendous yield**, fewer plants are needed. One commercial grower told us that he paid for his plants with the berries harvested from the fall crop the same year he planted them.

Perfect for Freezing

Red Rich is big, solid and firm all the way through. It ripens evenly and possesses an abundance of natural sugar. **Ideal for freezing**—and best of all it won't mush up when thawed. Don't lose a year with this amazing Strawberry. Plant this spring.

Year—See Page 3.

An Endorsement

George W. Nelson, Minnesota State Nursery Inspector, has the following to say of **Red Rich**: "I have examined hundreds of strawberry varieties in my work as a nursery inspector in Minnesota from 1914 to the present date. I have also grown from five to seven acres on my own farm at La Crescent since 1935. It is my opinion that the **Red Rich** variety is an **outstanding development** and is much superior, from every standpoint, to any other everbearing variety now grown. Red Rich combines the high qualities (honey sweetness—red rich color) of its parents, Wayzata and Fairfax, with high yield and vigorous growth. Its **flesh is firm and red clear through**. The color is an attractive glossy red."

It took 15,000 seedlings before the finest features of the Wayzata everbearing and the Fairfax June-bearing were developed in **Red Rich**—but it was worth it. Plants are still in short supply this spring, so we urge you to order early.

Try Berry-Set This Year—See Page 3.

PYRAMID

STRAWBERRY GARDENS!

911-00

In **one-third the space** of the conventional garden method, you can enjoy an abundant season of strawberry production right in your own back yard with a **Pyramid Garden**. Easy to pick from, easy to care for, the attractive Pyramid Garden adds beauty and real practical value to any garden or landscape. Bottom ring is 6 feet in diameter. Merely place first band on ground, fill with rich soil. Repeat simple operation for remaining rings. The simple modern way of growing strawberries. Garden Pyramid will accommodate 50 to 75 plants, depending on how you wish to space them. **Will not rust nor warp**. Price, \$9.25, prepaid.

Strawberries

STRAWBERRIES

Are Vitamin-Rich!

Dr. S. A. McCrory, Brookings, South Dakota, writing in the Minnesota Fruit Grower, says: "The strawberry is the one fruit South Dakota grows that is equal to citrus fruit in Vitamin C content. A 3½ oz. serving, or approximately one-sixth of a quart of strawberries, is generally considered adequate for the daily requirement of Vitamin C."

205-03

EVERMORE ★ ★ ★

Everbearing variety well adapted to a cold climate and heavier soils. Good quality berries, red all the way through. Plants are hardy and vigorous.

205-09

STREAMLINER

Streamliner has been very popular. Where it grows well it is sweet, large, bright and very attractive. Seems to prefer a light soil. **Everbearing.**

205-04 **GEM**

Widely planted **everbearer**. Hardy, quite drought resistant, fair quality.

205-06 **PREMIER**

Most dependable June-bearing strawberry. Good for home use or market. Blooms late so is **seldom hurt by frost**—yet bears early. Berries are of **good quality**, medium large, firm and very attractive.

Superfection

205-10 **SUPERFECTION**

Newest **everbearer** from Michigan. A vigorous grower producing **large, sweet berries**. Good producer of uniformly large fruit. Well liked by those who have it.

Arrowhead

Streamliner

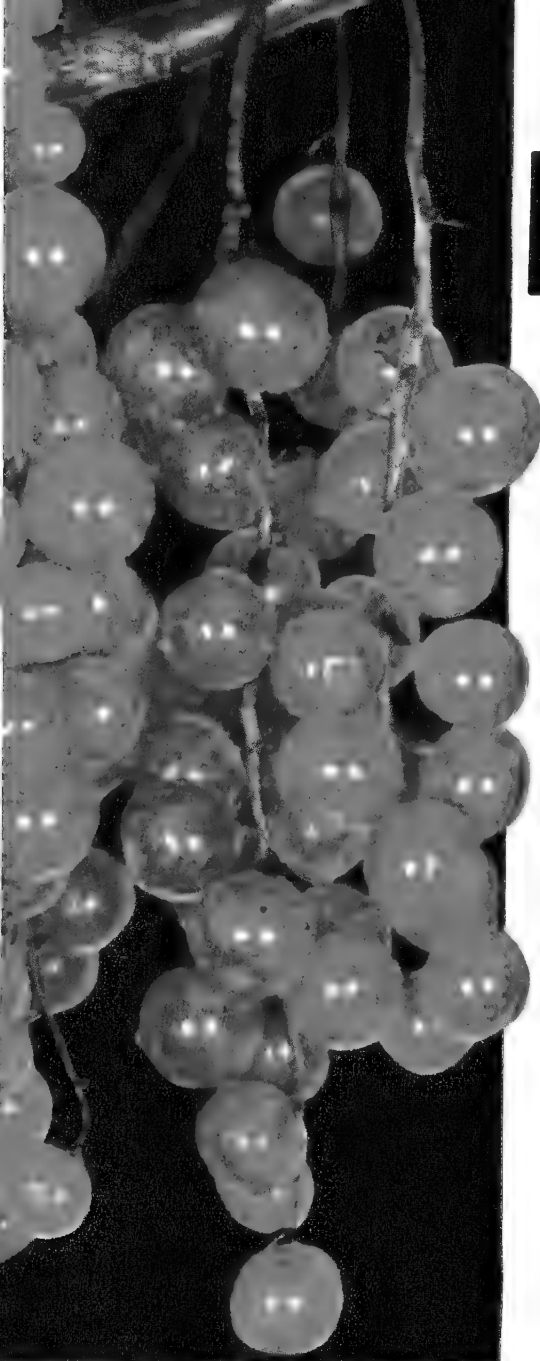

205-01

ARROWHEAD ★ ★ ★

Fruit is large, dark in color and of good flavor. Splendid for dessert and jam purposes. Firm for shipping and holds color well. **June bearer.**

205-02 **DUNLAP**

An old dependable **June bearer**. Berries medium in size and good for canning.

Red Lake (actual size)

★ ★ ★

RED LAKE CURRANT

206-05

Makes Clear, Bright Red Jelly

Imagine having your fruit cellar shelves well stocked with clear, sparkling, bright red currant jelly. The youngsters will love it! Currant mixed with raspberry makes a delicious jelly, too, and an outstanding dinner treat. Six bushes in your garden will give your family all the currant jelly they want. The large, scarlet-red berries grow in **long clusters**, well filled to the tip. Long stems make them **easy to pick**. They ripen in early midseason, but hold over a long period to use or sell as desired.

Introduced from Minnesota, Red Lake is now the most popular variety for home and market because of its high yield and vigorous growth. It is easy to grow, easy to pick, easy to sell.

Dr. J. Harold Clark, formerly of the New Jersey Fruit Experiment Station, says: "Red Lake has continued to yield fruit of large size borne on well-filled clusters. It has been superior in this respect to Fay, Wilder, Perfection and London Market."

2-yr., heavy select plants: Each 70c; 3 for \$1.95; 6 for \$3.55; 12 for \$6.00; 25 for \$10.00, prepaid.

CASCADE CURRANTS ★ ★ ★

Jelly Special

206-12
2 - RED LAKE
2 - PIXWELL

all 2-year heavy plants
ONLY **\$3.15** POSTPAID
(Regular Value \$4.70)

206-01 Cascade has extra big berries, and is a splendid companion for Red Lake, ripening a week earlier. The bush stands a little more upright and is a splendid plant. Cascade is just as hardy as Red Lake, just as productive, has a larger berry but not as long a bunch.

Prof. Alderman says of Cascade: "A very large-fruited currant with large clusters and very productive."

2-yr., heavy select plants: Each 80c; 3 for \$2.25; 6 for \$4.20; 12 for \$7.20; 25 for \$12.50, prepaid.

PIXWELL GOOSEBERRY

207-04

You'll want to try the appetizing pies and preserves made from this new, **almost thornless** gooseberry from North Dakota. It "**picks well**" because the berries hang on slender stems an inch below the branches. Its few thorns are rather soft, which makes picking a quick and easy operation. Pixwell carries heavy loads of large, fine quality berries. They turn from an attractive light green color to pink when they ripen. Bears very young.

The Dominion Experiment Station at Morden, Manitoba, Canada, says: "Pixwell continues the leading gooseberry for Manitoba conditions. It is exceedingly vigorous and always bears heavy crops."

Colorful foliage makes Pixwell a most attractive ornamental bush. Plant some of these hardy, dependable bushes this year, in both the garden and shrub border.

2-yr., heavy select plants: Each \$1.15; 3 for \$3.15, prepaid.

NURSERY COMPANY

FARIBAULT, MINNESOTA

From _____

Now!

BE PROUD OF YOUR YARD AND GARDEN
PLANT QUALITY NURSERY STOCK - THEN FEED IT WITH

Nurish

the Nation's Finest Plant Food

For bigger, lovelier flowers . . . finer, more nutritious fruits and vegetables . . . more handsome shrubs, trees and vines . . . a richer greener lawn . . . to make all types of plants thrive . . . apply a solution of NURISH, the Nation's finest plant food.

Plants Drink Their Food

. . . NURISH Feeds Plants Nature's Way

Plants can absorb food in only one way . . . they **MUST DRINK IT**. Any nourishment you apply must turn to liquid before the plant can use it. **NURISH**, newest advance in the exciting science of plant nutrition, dissolves in water to provide a rich nutrient solution which actually feeds plants nature's way . . . instantly. **NURISH** promotes quicker, more luxuriant growth . . . is specially helpful to transplants.

NURISH Is Fully Absorbed Through Both Roots and Leaves

Plants feed through both their roots and their leaves. When you apply **NURISH** . . . some nourishment is taken in through the leaves, while the remainder is absorbed by the roots.

No Odor - No Mess - No Waste

NURISH is odorless and very easy to use. The 1½ pound **NURISH** package comes to you in an attractive dispenser box, containing 32 **MOISTURE-PROOF**, pre-measured packets, each making 2 gallons of liquid plant food when dissolved in water. Simply break open a packet, pour into 2 gallons of water and you are ready to give your plants a feast.

High Analysis Makes

NURISH Inexpensive

NURISH is highly concentrated . . . the analysis (20-20-20) is very high making it inexpensive to use. Each 1½ pound package of **NURISH** makes 512 pounds of plant food when dissolved in water.

Perfectly Balanced Analysis

Plants need 3 major growth elements (nitrogen, phosphoric acid, potash) and a number of minor elements for perfect growth. **NURISH** contains nitrogen, phosphoric acid and potash in a perfectly balanced proportion (20-20-20), plus the necessary amounts of the minor elements. The formula was developed by the research scientists of the famous Battelle Memorial Institute, and manufactured by the Naco Fertilizer Co., a leading producer of agricultural fertilizers since 1907. We use **NURISH** in our nursery and get excellent results with it. We like **NURISH** because it is in perfect balance, the plants take it up at once, and we know they are getting a **COMPLETE** feeding—everything they need for rapid, yet sound, healthy growth.

Money Back Guarantee:

Complete direction folder including a Plant Feeding Guide is provided with each carton of **NURISH** . . . giving proper applications for all types of plant life and all stages of growth or seasonal care. **IF NOT FULLY SATISFIED** with results, purchase price will be cheerfully refunded.

1½ lbs. in 32-packet dispenser box **\$2.35** postpaid
3 lbs. in two, 32-packet dispenser boxes **\$4.45** postpaid

Write for prices if interested in larger size containers.

For Weed Control in Strawberries use

"CRAG" - - HERBICIDE 1

A Product of Carbide and Carbon Chemicals Division of Union Carbide and Carbon

CRAG Herbicide 1 in a short time has become a widely discussed and much sought material for chemical weeding of strawberries, in which weed control is difficult. The unique properties of **CRAG** Herbicide 1 (2, 4—dichlorophenoxyethyl Sulfate) make it possible to use this material where other weed killers will cause too much damage.

CRAG Herbicide has the ability to kill or stunt germinating weed seeds without affecting established plants when used according to label recommendations. **CRAG** Herbicide 1 effectively controls purslane, chuckweed, lambs-quarters and many other weeds, yet it has the property of being non-injurious to plants when sprayed on the foliage at concentrations that will kill germinating weed seeds in the soil.

Reduces Hand Work - Increases Yield

The chemical does not become active until sprayed onto the soil. Its use materially reduces weeding costs and, by eliminating weed competition, aids the grower by increasing yields.

GARDEN ROOTS *from Andrews*

You'll enjoy that first delicious taste of juicy, red rhubarb early in the spring. Keep pulling and using it, and it will be just as tender and flavorful throughout the season. For a treat, try mixing with it a few raspberries or strawberries.

Rhubarb is the most under-rated, easy-to-grow and easy-to-prepare garden product ever known. The new red varieties make sauce or pies that are a beautiful cherry-red. The flavor is pleasantly tart and tantalizingly sweet. The red skin is so smooth, tender and sweet that peeling is unnecessary. Rhubarb is fine for canning and freezing, too.

The New 210-07 **VALENTINE** *Mildest and Sweetest of All*

Introduced from Canada, **Valentine** is the newest and best of the red rhubarbs. It is **sweetest** of all, requiring the least sugar. Makes delicious pies and a smooth, tender, bright red sauce. Combines rich flavor, **high quality** and vigorous growth. Excellent for home use and freezing.

A rare taste treat, Valentine was among 25 varieties tested at the Dominion Experiment Station, Morden, Manitoba, Canada. Six persons tasted cooked rhubarbs identified only by numbers. The Morden Station reports: "**Valentine rated highest.** Color was an even bright red; texture smooth and tender. Flavor was pleasing with a slightly tart after-taste. All testers accorded Valentine the highest standard." 2 for \$2.25; 6 for \$6.00; \$1.25 each, all prepaid.

210-05

MacDONALD

Valentine

A heavy producer of extra large, thick, juicy stalks that are good all spring and most of the summer. Skin is bright red and tender; flesh is white and sweet. Makes delicious, cherry-red sauce and pies with less sugar. Recommended for freezing, too. Yields early and heavily; very popular with commercial growers. Prices: 2 for \$1.35; 6 for \$3.55; 75c each, all prepaid.

210-09 **CANADA RED**

The reddest of all red rhubarbs and a runner-up in taste appeal to Valentine. Has large, tender, juicy stalks that are rich red all the way to the heart and even to the mid-ribs in the leaves. Skin is so tender you need not peel it. **Canada Red**, a heavy producer, can be used throughout the season. Plant now and have rhubarb this year. Prices: 2 for \$1.85; 6 for \$4.85; \$1.00 each, all prepaid.

210-03 **PARADISE ASPARAGUS**

You'll enjoy extra-green, tender and tasty **Paradise Asparagus**. It's full of vitamins and minerals you need. Eat all you can for 6 or 8 weeks, and can or freeze a winter's supply, too. Retains its fresh flavor in freezing.

Paradise is reported to yield twice the crop of ordinary asparagus, and produces a normal crop a year earlier.

Flowering Crab
**ALMEY,
FLOWERING
CRAB TREE**

Flowering Crab Trees mean Spring!

FLOWERING CRABS

The real coming of spring is heralded by the gorgeous Flowering Crab trees as they spill their clouds of red and pink blooms onto the landscape to signal the passing of winter and the coming of another glorious spring. Flowering Crab trees are not only breath-taking in their spring dress, but very

serviceable as small shade trees. And now, we have a new type—a pyramidal Flowering Crab—that can be used as screens or corner plantings. These and others are described on page 26.

303-01 ALMEY CRAB

The Flowering Crab tree with sensational dollar-size blooms of a rich, **glistening, fiery crimson**. ALMEY takes its rightful place as the most beautiful Flowering Crab tree in America. Developed by the Dominion Experimental Station at Morden, Manitoba, Canada, they have this to say of Almey: "Has very large blossoms of glistening red. White markings at the base of each petal give the effect of a five-sided star. When in bloom this strong growing healthy tree, from a distance, looks

like a mass of flame." Another distinct advantage of Almey is that it **blooms young**. Every spring, the little 2-year-old trees in the nursery are in bloom. Some customers have written telling us their Almey bloomed the same spring that they planted it. Don't miss getting your Almey started this spring. 5 to 6 ft., \$3.75 each; 2 for \$7.15. 4 to 5 ft., \$3.15 each; 2 for \$5.95. 3 to 4 ft., \$2.45 each; 2 for \$4.55, all prepaid.
